Get the ideal charge every time

Wall Charger not only quickly powers the fastest charging devices, but plays well with other models too. So for Standard PD 3.0 compatible devices you'll get a max 25W charge, while others charge at speeds they can handle. Get it in black or white to match your preferences.

*Super Fast Charging requires a USB PD 3.0 compatible device that supports Direct Charging. Devices that do not support USB PD3.0 standard or Direct Charging will charge at a slower rate than SFC speed.
**Actual charging speed may vary depending on other factors and device circumstances.
