

SAMSUNG

Professional Monitor SR65

Less Bezel, Full Focus

Minimal bezel brings maximum concentration. The virtually bezel-less screen shows you the full picture and looks almost gapless when used in a dual-monitor setup. See more at once with no distractions in your way, and get through larger sections of your to-do list during screen time.

True Colors All Around

Now, the whole team can see perfectly. The IPS panel preserves color vividness and clarity across every inch of the screen. Work comfortably on the productivity-boosting wide display and see accurate tones and shades from 178° all around, with no color washing.

Complete Connectivity

So many ways to connect. A full lineup of ports brings you the complete connectivity you need in today's working environment. Plug in all your devices like laptops, desktops, and tablets, and connect your USB hub to the USB 3.0 port for easier access to small or personal electronics.

Fresh Eyes Achieve More

Protected eyes stay focused through the whole shift. Advanced eye comfort technology reduces eye strain for heightened concentration and greater productivity. Flicker Free technology continuously removes tiring and irritating screen flicker, while Eye Saver Mode minimizes blue light emissions.

Tailored to Your Use

Superior design for the ultimate in everyday versatility. The height-adjustable monitor swivels, tilts, and pivots for you to see your work any way you want. The sleek and clean design adds a touch of style to your office interior and is VESA-compatible for easy installation.

Energy-Saving Display

Smart Eco Saving technology achieves power-consumption reductions of up to 10% while still maintaining picture quality. It adjusts the brightness of the screen's black sections while simultaneously adjusting the RGB gain values, so the screen looks just as bright as you remember.
