Reference : 400190958

Reference : 400190959

With its modern and elegant design and water resistance, AVA is ideal for outdoor use. The perfect companion to brighten up your evenings on any occasion or simply add a touch of freshness to your desk !

- **Design** : with its ultra-chic head and elegantly slim stem, the AVA lamp brings a touch of modern style to your space. Available in 4 shades, it adds a breath of fresh air to your desk.
- **Adjustable brightness** : a touch-sensitive button located on the head allows you to gently adjust the brightness for perfect lighting.
- **Stability** : its weighted base ensures rock-solid stability on your desk.
- **Water-resistant**: AVA is rated IP44, making it splash-resistant, the ideal waterproof lamp.
- **Battery-powered** : light up your space without limits, up to 6 hours of battery life, no cords attached !
- **Non-slip**: the foam-covered base is non-slip and protects your desk from scratches.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.

OUR EXPERTISE

Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

* Standard setting the limits that workplace lighting must adhere to.

Our tips to light up your workspace :

- Position your desk near windows to benefit from natural daylight and reduce eye fatigue.
- Ensure that the lamp head is positioned at least 35 cm above the work surface.
- Place the lamp on the opposite side of the hand that holds the mouse or writes.
- Position the lamp for easy adjustment.
- Ensure that your lamp is placed to avoid glare on screens and prevent direct glare in your field of vision.

ENVIRONMENT

Unilux focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction, and continuous improvement are at the core of our concerns.
