V-Gard® 950

Non-vented industrial safety helmets with integrated face shield

Balanced lightweight electrician's safety helmet, non-vented, with 6-point Fas-Trac® III ratchet suspension and GS-ET-29 class 1 face shield certified for protection against arc flash. For use where top impact hazards to the head, chemical splash, Ultra-Violet radiation, molten metal splash or electric arc to the face exist.

Helmet Features

- Made of ABS for strength and lateral crush protection (LD option)
- Modern, dynamic with sports styled shell
- Low profile (patented visor mechanism which minimises helmet shell size)
- Channel around perimeter of the helmet diverts rain and debris from user
- Anti-static assembly; certified electrostatic-INERIS for use in ATEX/explosive environments
- Protection against molten metal (MM option)
- Electrically insulating helmet meeting EN 397 440 V AC and EN 50365 1000 V AC
- Compatible with hearing protection
- Complete with 4-point chinstrap for better helmet retention
- Helmet delivered in a protective reusable storage bag
- Optional: chin cup made with arc flash resistant materials

Suspension Features

- 6-point Fas-Trac® III ratchet suspension with premium washable and replaceable sweatband
- · Head straps in woven polyester providing high comfort and long term, consistent shock absorption performance
- \bullet Balance and stability with a lower nape strap
- Comfort pad to separate the ratchet from the head increasing comfort and cooling airflow
- Ratchet offers smooth rotation
- Easy grip knob adjustable even with gloves
- Three levels of nape height adjustment giving superior fit

Face Shield Features

- Protects against impact, chemical splash, Ultra-Violet radiation, molten metal splash and electric arc to GS-ET-29 class 1 (4kA)
- Premium anti-fog/anti-scratch coated visor fits over all corrective and safety glasses
- Reliable single handed smooth movement, even gloved
- 2 face shield positions (up or completely down)
- Tool free lens replacement

Non-vented industrial safety helmets with integrated face shield

Custom sticker option

- Microprismastic grey or red retroreflective stickers
- Can be applied during production or inserted inside helmet bag or ordered separately
- Visibility of the wearer 360° at up to 250m
- Similar day and night time appearance

Logo customisation option

- From one-color logos to digital photos of your choice; up to four locations and maximum
 50 x 75 mm
- Quality printing, durable and weather resistant
- Minimum order quantities start with 12 helmets
- Logo is possible on the badge holder: 30 x 75 mm

Optional arc flash ear flaps

- Unique washable arc flash ear flaps to ensure protection against arc flash (arc flash resistant textile; GS-ET-29 Class 1)
- Green color inside (visible in upper/stand by position) and grey color outside (visible in down/ safety position): you know when your workers are protected!
- Hand wash (40°C)

Optional badge/lamp holder

- Robust and watertight for outdoor applications
- Can hold business cards, magnetic access control badge, authorization or licenses
- Assembled during production
- Designed for using with headband lamp

Markets

- Utilities
- General industry and manufacturing
- Construction
- Oil, gas and petrochemical

Replacement parts

- Fas-Trac® III suspension
- Ocular lens
- Foam sweatband
- 4-point chinstrap

Other compatible accessories

- Individual naming stickers
- Hearing protection,
- Winter liners, neck capes and cooling liners

V-Gard® **950**

Non-vented industrial safety helmets with integrated face shield

Standards & Testing		
Standards (Head Protection) 1000 V	Certified by CE notified body APAVE (0082) according to: EN397:2012, industrial safety helmets with options; Very low temperature (-30°C), lateral deformation (LD), molten metal (MM), 440V AC (electrical insulation) Also tested at -40°C (GOST) EN 50365 electrical class 0 nominal voltage up to 1000 V A.C. and 1500 V D.C.	
Standards (Eye Protection)	Certified by CE notified body DINCERTCO (0196) according to: EN166:2001 personal eye equipment 2C-1,2 1 3 B 8-1-0 9 KN) 2C-1.2 = UV filtering according to EN170:2002 1 = Optical quality 3 = Protection against liquid splash B = Resistance to medium energy impact 120 m/s "8" = Electric arc resistance according to EN166:2001 "1" = Protection class 1 (4 kA) according to GS-ET-29 "0" = Best light transmission class according to GS-ET-29 =, VLT>75% 9 = Resistance to molten metals and hot solids K = Resistance to surface damage by fine particles according to EN 168: 2001, clause 15 N = Resistance to fogging	
Supervision according to 11/B article of PPE directive	System for ensuring EC quality of production by means of monitoring CE notified body UTAC (0069) CEE	
Additional approvals & testing		
Head Protection ELECTROSIATION INERIS	Certified by INERIS to EN ISO 80079-36: 2016 & CEI/TS 60079-32: 2017 for safe use in ATEX areas* (ELECTROSTATIC-INERIS Certificate n° 29406) - Dust: zones 20, 21, 22 (all zones) - Gas: zones 1 & 2 with gas group IIA (Propane) * Caution: when working in an ATEX area operatives must be fully equipped with appropriate PPE eg. dissipative shoes (earth resistance less than 1.108Ω), not just suitable industrial helmets!	
Additional testing for reflective stickers	Exceeds the reflectivity values of EN 12899-1:2007 for class RA2 materials	
Additional testing for arc-flash ear-flaps	Tested according to GS-ET-29 Class 1 (Supplementary requirements for the testing and certification of face shields for electrical works): Test Report available. Included in the ELECTROSTATIC-INERIS Certificate - See details above	

Packaging

Individual (sales unit)	1 helmet in a protective plastic bag, instructions printed on paper, suspension completely fitted, delivered with a reusable textile bag	
Box (multiple of sales and minimum order quantity)	12* helmets in a box Box size 710 x 590 x 340 mm	
Pallet	120 helmets (10 box of 12 helmets) Pallet size 1200 x 730 x 1980 mm	

*The following P/Ns: GVF1A-C0A0000-000, GVF2A-C0A0000-000, GVF1A-C0A000G-000 and GVF1A-C0A00GG-000 can be ordered from 1 unit.
