EN

Please read these instructions carefully before using this safety clothing. You should also consult your safety officer or immediate superior with regard to suitable garments for your specific work situation. Store these instructions carefully so that you can consult them at any time.

CE

Refer to the product label for detailed information on the corresponding standards. Only standards and icons that appear on both the product and the user information below are applicable. All these products comply with the requirements of Regulation (EU 2016/425).

ISO 13688:2013 Protective Clothing (See label)

General Requirements This European Standard specifies general requirements for ergonomics, ageing, sizing, marking of protective clothing and for information supplied by the manufacturer.

- A= Recommended height range of wearer
- B= Recommended chest girth of wearer
- C= Recommended waist girth of wearer
- D= Recommended inside leg measurement of wearer

EN ISO 20471:2013 + A1:2016, High Visibility Warning Clothing signalling the users presence during day and night (see label)

X Classifications (EN ISO 20471:2013 + A1:2016) X Class for the fluorescent and reflective surface - 3 levels

- X Class 1 - Minimum level traffic speeds <30km/h
- X Class 2 - Intermediate level traffic speeds <60km/h
- X Class 3 - Highest level traffic speeds >60km/h

RIS-3279-T05 Issue 1 (2016) :

Railway Industry Standard

RIS-3279-T05 Issue 1 has replaced GO/R1 3279.

Railway Industry Standards (RIS) are mandatory on all members of the Railway Group and apply to all relevant activities.

Limits of use (EN ISO 20471:2013 + A1:2016, RIS 3279 & ANSI/ISEA 107-2015): Always wear the garment fastened. Keep clean: Should the High Visibility properties of this garment

become irreversibly soiled or contaminated, replace with a new one. This garment is suitable for wear during an entire working day and contains no toxic substances that can affect health adversely in any other way. No allergic reactions due to skin contact with this garment are known. Do not attempt to repair damaged garments. All garments should be discarded safely. The clothing should not be altered or filtered with extra labels or logos. The clothing should only be worn in situations for which it is intended.

Limits of use (RIS 3279): Class 1 trousers claiming RIS 3279 Compliance are required to be worn with a RIS 3279 upper body garment.

Available Size & Selection:

Fit according to correct chest and waist size. Refer to size chart. These garments have built in allowance for comfort and to allow the garment to be worn over medium bulky clothing.

Storage:

DO NOT store in places subject to direct or strong sunlight. Store in clean, dry conditions.

After-care: The manufacturer will not accept liability for garments where care labels have been ignored, defaced or removed.

Fibre Content Label:

Refer to garment label for corresponding content details.

Warning: where there is a hood, peripheral vision and hearing may be impaired.

Retroreflective tape and labels:

Retroreflective tape or labels should not be ironed! Please refer to the garment label for the number and wash cycles claimed. The stated maximum number of cleaning cycles is not the only factor related to the lifetime of the garment. The lifetime will also depend on usage, care storage, etc. Garments should be discarded when the protective qualities no longer apply e.g. 1. Maximum number of washes is reached, 2. The material has been damaged either by fading or has been torn. 3. The reflective qualities of the tape have faded. 4. Garment is permanently soiled, cracked, burned or heavily abraded.

Wash Care Labels: Refer to garment label for corresponding washing details.
