Advantages of the FlexTop 170

Easy setup.

The FlexTop 170 can be easily unfolded. Simply loosen the flexible height adjustment strap from the magnetic lock at the bottom. Then choose one of the seven heights and set your personal optimal height.

More comfort in a healthy posture.

With the FlexTop 170 you get your screen to the right height, angle, and distance. You prevent unnecessary bending of your neck and back "into your screen".

Ideal height.

In the twinkling of an eye, you can bring up your laptop screen to a comfortable eye level, take the strain off your neck and work pain-free.

Made of high-quality material with an exclusive look.

The FlexTop170 is made of unique aluminium sandwich material and has a light weight of just 225 g. This sandwich material is also used in the automotive industry.

Optimal for your mobile work.

The FlexTop 170 is ideal for your mobile screen work e.g., when you are working in the home office or during a meeting in the office, simply anywhere, where an even surface is guaranteed.

Ergo-Q 160

A laptop stand with a lot of stability, quality and power.

The Ergo-Q 160 laptop stand provides you with the best possible support for your mobile screen work in an exclusive design.

The high-quality aluminium sandwich material in several layers makes it very stable and indestructible.

Adjust your laptop screen to the correct height, angle, and distance so that you automatically adopt an ergonomically correct posture.

1. Distance between your eyes and the screen should be 50-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.
2. The angle of your line of vision to the middle of the screen should be approximately -35° , so also adjust the height of your screen.

Legal requirements: The laptop is not suitable for longer use without external devices.

A laptop stand with a lot of stability, quality and power.

The Ergo-Q 160 is appropriate for almost any laptop size (up to 17 inches) and works also for tablets and mobile screens. A quick installation of your device is guaranteed, with five levels for the height-adjustment. From now on you will work in a healthier posture with the Ergo-Q 160 laptop stand and raise your laptop screen to the optimum height and viewing angle.

 [Watch product online](#)

Advantages of the Ergo-Q 160

Just set it up.

The Ergo-Q 160 can be set up in a few seconds. Unfold it and simply put the connection piece, which is made of the high-quality aluminium sandwich material, in one of the five slots.

Laptop work has never been healthier.

You'd like to reduce and prevent physical discomfort and work more productively with your laptop? Then start using the Ergo-Q 160 and stop bending your neck and back "into your screen".

Choose your height.

Choose one of the five levels and set the optimal height for you. The advantage is, that this product is suitable for everyone, no matter how tall you are!

High-quality aluminium sandwich material.

The high-quality aluminium sandwich material of the Ergo-Q 160 is lighter than aluminum and at the same time more resistant to dents. The Ergo-Q 160 consists of one thin and one thick layer of aluminium sandwich material.

Mobile.

The Ergo-Q 160 is perfect for your mobile screen work e.g., when working in the home office, during a meeting in the office, at a client's or on the way there, in a library or café, simply anywhere you can imagine laptop work.

Foldable. Compact.

You can easily take this laptop stand with you anywhere, as it fits into any backpack or laptop bag and thanks to its weight, you don't even notice, that you are carrying it with you.

Ergo-Q Hybrid Pro

Versatile tablet- and laptop stand with the best quality.

The Ergo-Q Hybrid Pro is a tablet- and laptop stand in one, and the perfect tool for your hybrid workstation.

Two combined methods of height adjustment for the ideal screen position of your mobile device.

Adjust your laptop screen to the correct height, angle, and distance so that you automatically adopt an ergonomically correct posture.

1. Distance between your eyes and the screen should be 50-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.
2. The angle of your line of vision to the middle of the screen should be approximately -35° , so also adjust the height of your screen.

Legal requirements: The laptop is not suitable for longer use without external devices.

Versatile tablet- and laptop stand with the best quality.

The Ergo-Q Hybrid Pro is easily adjustable, foldable into a compact size with practical magnetic closures, has anti-slip feet and is made of high-quality aluminium sandwich material for a high stability and durability. The Ergo-Q Hybrid Pro is a versatile solution so that you can work everywhere ergonomically and comfortable with all your mobile devices.

[Watch product online](#)

Advantages of the Ergo-Q Hybrid Pro

Hybrid - Two methods of height settings.
 With the Ergo-Q Hybrid Pro you have the choice between two height adjustment ranges with in total 25 height adjustment levels, which vary between 140 mm and 430 mm.

Use it as a tablet- or mobile screen stand.

The Ergo-Q Hybrid Pro can be used in many ways. If you need a tablet or mobile screen holder, then easily fix your device with the help of the flexible clamp.

Use it as a laptop stand.

The Ergo-Q Hybrid Pro is suitable for laptops up to 16 inches. You can choose between five different height adjustment levels, which are easy to adjust with the strap in the front.

Adapt a healthy posture.

You can get your screen to the right height, angle, and distance. Raise the screen of your device, reduce the viewing distance, and prevent unnecessary bending of your neck and back "into your screen".

Always stable. High-quality aluminium sandwich material.

The Ergo-Q Hybrid Pro is made of a high-quality aluminium sandwich material. This unique material, which is also used in the automotive industry, is lighter than aluminium and resistant to dents.

Easy to carry. Mobile.

You can therefore easily take it with you anywhere, as it fits into any backpack or laptop bag and thanks to its weight, you don't even notice, that you are carrying it with you. Thanks to its clever design, it is easy to fold and unfold.

UltraStand Universal

Integrated laptop stand, always with you

The UltraStand Universal integrates perfectly with your laptop, so you don't have to take an additional laptop stand with you.

The UltraStand Universal is always with you and ensures everywhere a healthy and ergonomic way of working.

Adjust your laptop screen to the correct height, angle and distance so that you automatically adopt an ergonomically correct posture.

1. Distance between your eyes and the screen should be 50cm-80 cm (approximately an arm length), depending on monitor size and resolution. Adjust the distance of your screen.
2. The angle of your line of vision to the middle of the screen should be approximately -35° , so also adjust the height of your screen.

Legal requirements

The laptop is not suitable for longer use without external devices.

Integrated laptop stand, always with you.

The UltraStand Universal is ultra-thin and super light and therefore space-saving. Whether you use the laptop stand in the office, at university or at home, you can use it simply anywhere you can imagine laptop work. The UltraStand Universal is the perfect companion when you are on the go.

 [Watch product online](#)

The Advantages of the UltraStand Universal

Integrates perfectly with your laptop.
After checking if your laptop model is suitable, the UltraStand Universal is easy to attach to the centre of the laptop bottom using the removable adhesive strips.

In a few seconds an ergonomic set up.
Simply loosen the flexible height adjustment strap from the magnetic lock at the bottom. Then choose one of the six heights and set your personal optimal height level between 95mm and 160mm.

Right height and distance.
With the UltraStand Universal you prevent unnecessary bending of your neck and back "into your monitor". The UltraStand Universal supports a healthier posture and reduces physical discomfort.

Made of high-quality, unique aluminium sandwich material.
This unique material, which is also used in the automotive industry, is lighter than aluminium and resistant to dents and scratches. This material makes the UltraStand Universal therefore very durable.

Mobile working.
The UltraStand Universal is ideal for mobile screen work. With the integrated UltraStand Universal there is no need to carry a separate laptop stand in your bag, it is always readily available.

Stable.
This highly stable stand and the anti-slip feet on the underside promise a firm working setup for your laptop on any surface.
