

AIR FRESH 7

AIR FRESHENER

Our combined units are particularly efficient! The modern device offers the following functions: Cooling, cooling, cleaning and humidification - they can be used together or separately. Thanks to the revolutionary ion technology, the device provides fresh and dust-free air.

The air refreshener has different ventilation modes, horizontal/vertical oscillation and a water level indicator. AIR FRESH 7 has an easy to use control and the practical wheels make the unit mobile and individual.
