# 01

## Methodology

# Environmental Impact Assessment

<p><b>Functional unit</b></p>	<p>The functional unit is a quantified performance of a product system for use as a reference unit. One of the primary purposes of a functional unit is to provide a reference to which the input and output data are normalized (in a mathematical sense). The functional unit of this analysis is "2500 page(s) of A4 paper for writing".</p>
<p><b>Impact Indicator</b></p>	<p>The impact is measured through the "IPCC 2013 GWP 100a" method.</p>
<p><b>Electricity impact calculation method</b></p>	<p>Following guidelines from the GHG Protocol, the impact of electricity is calculated using the location-based approach. This means that the emission factors used represent the average annual carbon intensity of the power grid in the country the processes take place in.</p>
<p><b>Hypothesis</b></p>	

# Environmental Impact Assessment

## System Boundaries

The scope of this research includes the complete lifecycle of a piece of paper from raw material extraction to disposal options for each material, which is the cradle-to-grave perspective.

## Exclusions

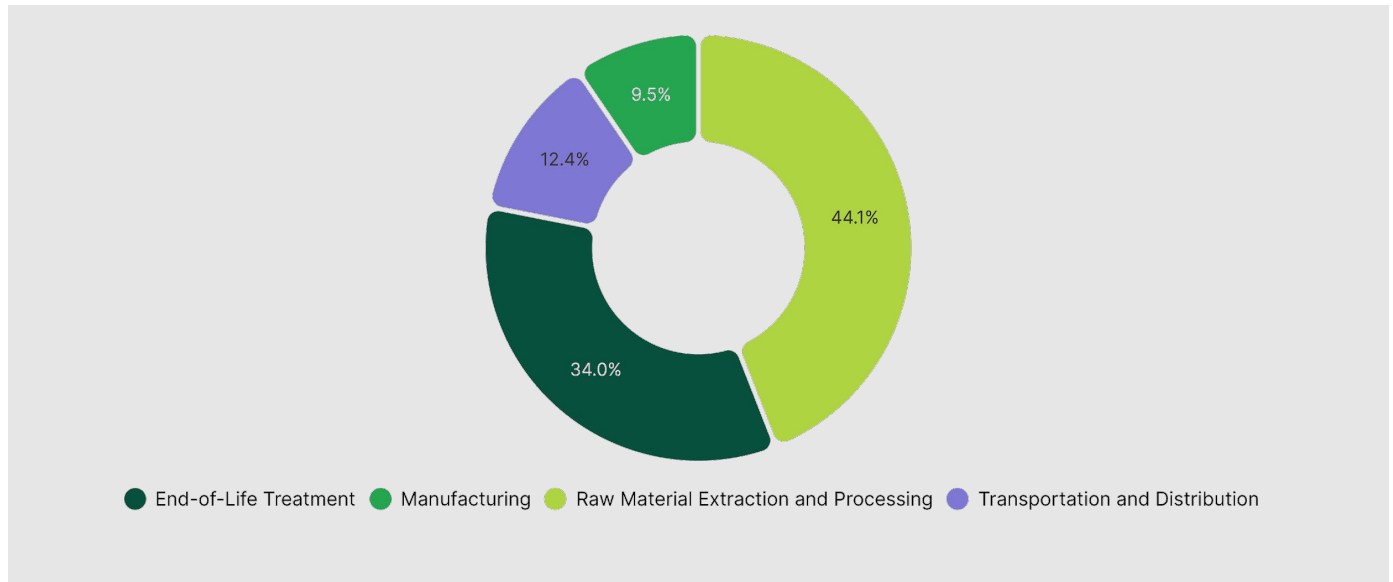

The impact of secondary packaging impact and writing utensils are excluded from this assessment.

# 02

## Results

3381324 (sold in CH)

# Climate Change

Step	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Raw Material Extraction and Processing	9.17	44.07 %
End-of-Life Treatment	7.08	34.02 %
Transportation and Distribution	2.58	12.38 %
Manufacturing	1.98	9.54 %
TOTAL	20.81	100.00 %

3381324 (sold in CH)

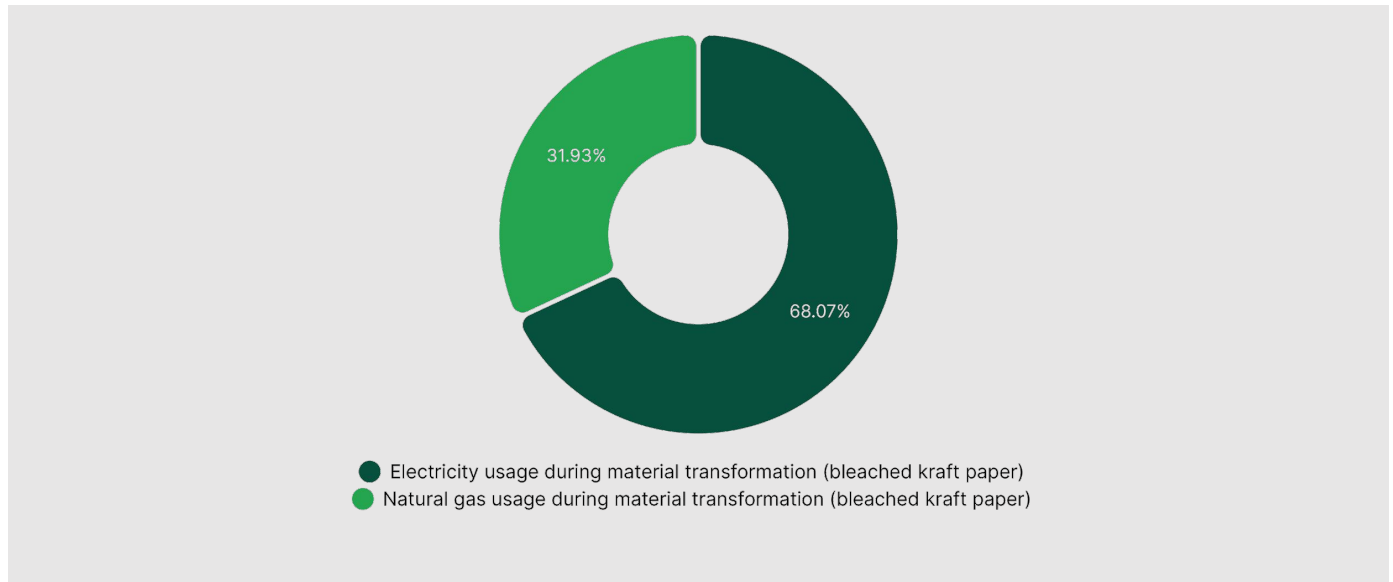

# Climate Change - Raw Material Extraction and Processing

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Sourcing of raw material (bleached kraft paper)	1	18.42	9.17	100.00 %
TOTAL			9.17	100.00 %

3381324 (sold in CH)

# Climate Change - Manufacturing

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Electricity usage during material transformation (bleached kraft paper)	2	6.52	1.35	68.07 %
Natural gas usage during material transformation (bleached kraft paper)	3	3.5	0.63	31.93 %
TOTAL			1.98	100.00 %

3381324 (sold in CH)

# Climate Change - Transportation and Distribution

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Freight	4	12.28	2.58	100.00 %
TOTAL			2.58	100.00 %

3381324 (sold in CH)

# Climate Change - End-of-Life Treatment

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
End of life (bleached kraft paper)	5	12.28	7.08	100.00 %
TOTAL			7.08	100.00 %
