01

Methodology

Environmental Impact Assessment

<p>Functional unit</p>	<p>The functional unit is a quantified performance of a product system for use as a reference unit. One of the primary purposes of a functional unit is to provide a reference to which the input and output data are normalized (in a mathematical sense). The functional unit of this analysis is "10 page(s) of A4 paper for writing".</p>
<p>Impact Indicator</p>	<p>The impact is measured through the "IPCC 2013 GWP 100a" method.</p>
<p>Electricity impact calculation method</p>	<p>Following guidelines from the GHG Protocol, the impact of electricity is calculated using the location-based approach. This means that the emission factors used represent the average annual carbon intensity of the power grid in the country the processes take place in.</p>
<p>Hypothesis</p>	

Environmental Impact Assessment

System Boundaries

The scope of this research includes the complete lifecycle of a piece of paper from raw material extraction to disposal options for each material, which is the cradle-to-grave perspective.

Exclusions

The impact of secondary packaging impact and writing utensils are excluded from this assessment.

02

Results

13822895 (sold in CH)

Climate Change

Step	Impact (kg CO ₂ eq)	Percentage (%)
Raw Material Extraction and Processing	1.18	50.23 %
End-of-Life Treatment	0.91	38.78 %
Manufacturing	0.16	6.80 %
Transportation and Distribution	0.1	4.19 %
TOTAL	2.35	100.00 %

13822895 (sold in CH)

Climate Change - Raw Material Extraction and Processing

Activity	Emission Factor Num	Quantity	Impact (kg CO ₂ eq)	Percentage (%)
Sourcing of raw material (bleached kraft paper)	1	2.37	1.18	100.00 %
TOTAL			1.18	100.00 %

13822895 (sold in CH)

Climate Change - Manufacturing

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
Natural gas usage during material transformation (bleached kraft paper)	3	0.45	81.44	51.03 %
Electricity usage during material transformation (bleached kraft paper)	2	0.84	78.15	48.97 %
TOTAL			159.59	100.00 %

13822895 (sold in CH)

Climate Change - Transportation and Distribution

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
Freight	4	1.58	98.3	100.00 %
TOTAL			98.3	100.00 %

13822895 (sold in CH)

Climate Change - End-of-Life Treatment

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
End of life (bleached kraft paper)	5	1.58	910.01	100.00 %
TOTAL			910.01	100.00 %
