Lyreco LCA

Life Cycle Assessment

The methodology in this report is based on ISO 14040

15886114 (sold in CH)

Summary

01 | Methodology

02 | Results

01

Methodology

Environmental Impact Assessment

Functional unit

The functional unit is a quantified performance of a product system for use as a reference unit. One of the primary purposes of a functional unit is to provide a reference to which the input and output data are normalized (in a mathematical sense).
The functional unit of this analysis is "20 page(s) of A4 paper for writing".

Impact Indicator

The impact is measured through the "IPCC 2013 GWP 100a" method.

Electricity impact calculation method

Following guidelines from the GHG Protocol, the impact of electricity is calculated using the location-based approach. This means that the emission factors used represent the average annual carbon intensity of the power grid in the country the processes take place in.

Hypothesis

Environmental Impact Assessment

System Boundaries

The scope of this research includes the complete lifecycle of a piece of paper from raw material extraction to disposal options for each material, which is the cradle-to-grave perspective.

Exclusions

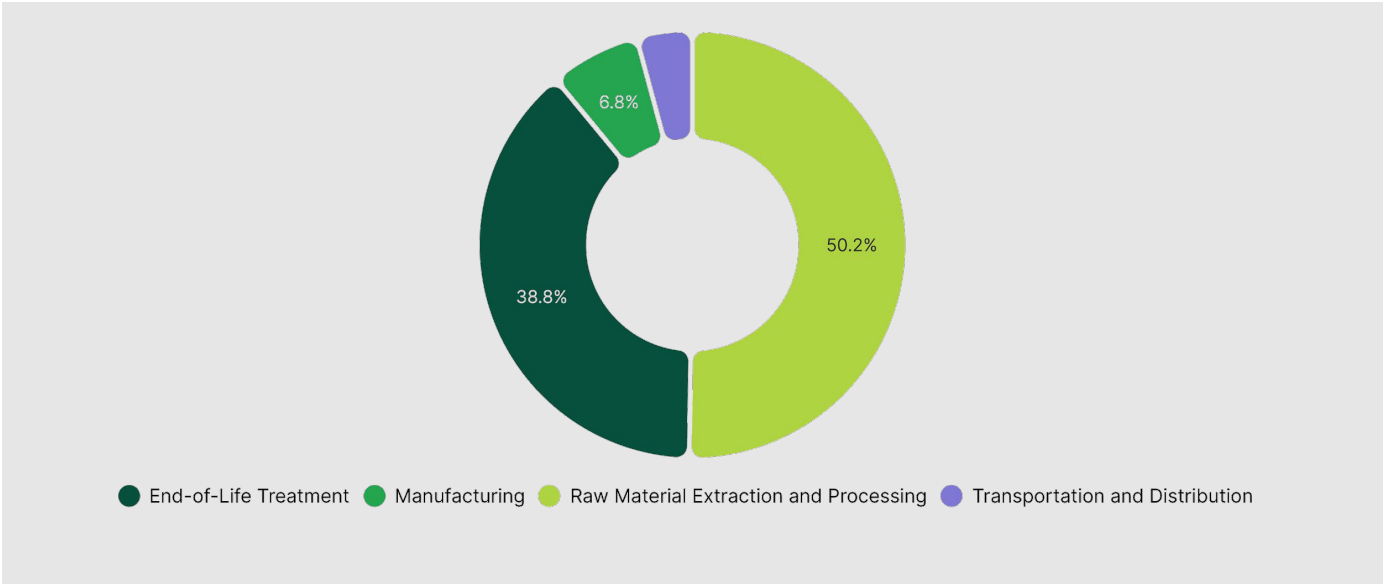

The impact of secondary packaging impact and writing utensils are excluded from this assessment.

02

Results

15886114 (sold in CH)

Climate Change

Step	Impact (g CO ₂ eq)	Percentage (%)
Raw Material Extraction and Processing	496.05	50.23 %
End-of-Life Treatment	382.95	38.78 %
Manufacturing	67.16	6.80 %
Transportation and Distribution	41.37	4.19 %
TOTAL	987.53	100.00 %

15886114 (sold in CH)

Climate Change - Raw Material Extraction and Processing

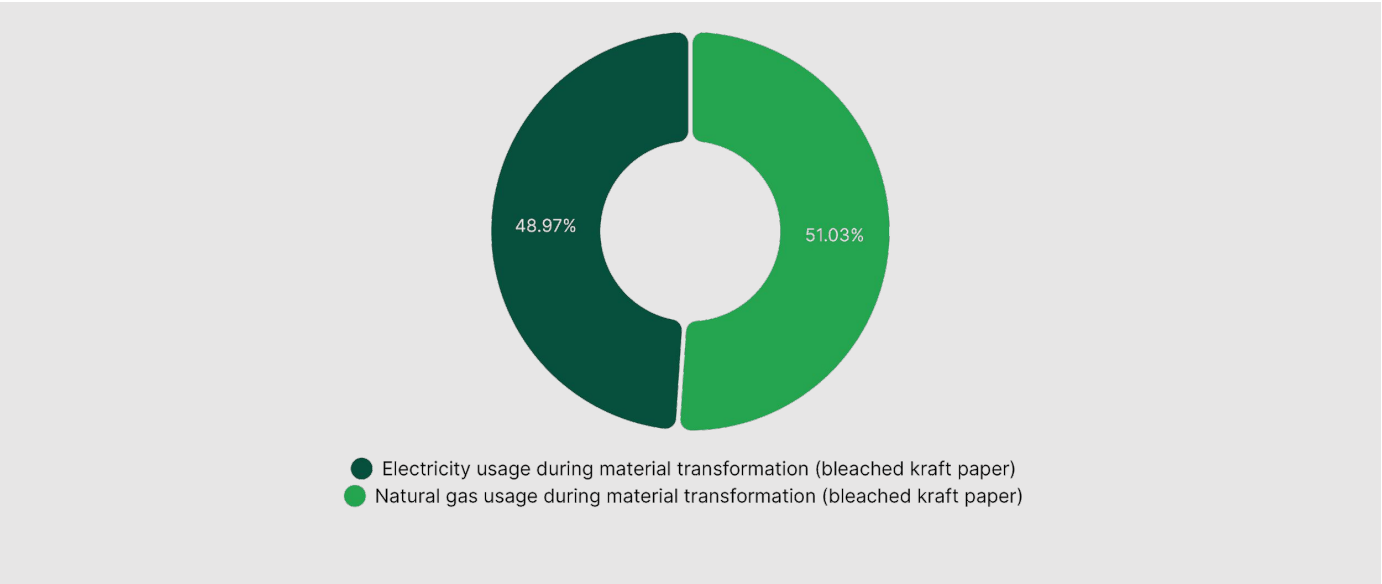

- Sourcing of raw material (bleached kraft paper)

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
Sourcing of raw material (bleached kraft paper)	1	1	496.05	100.00 %
TOTAL			496.05	100.00 %

15886114 (sold in CH)

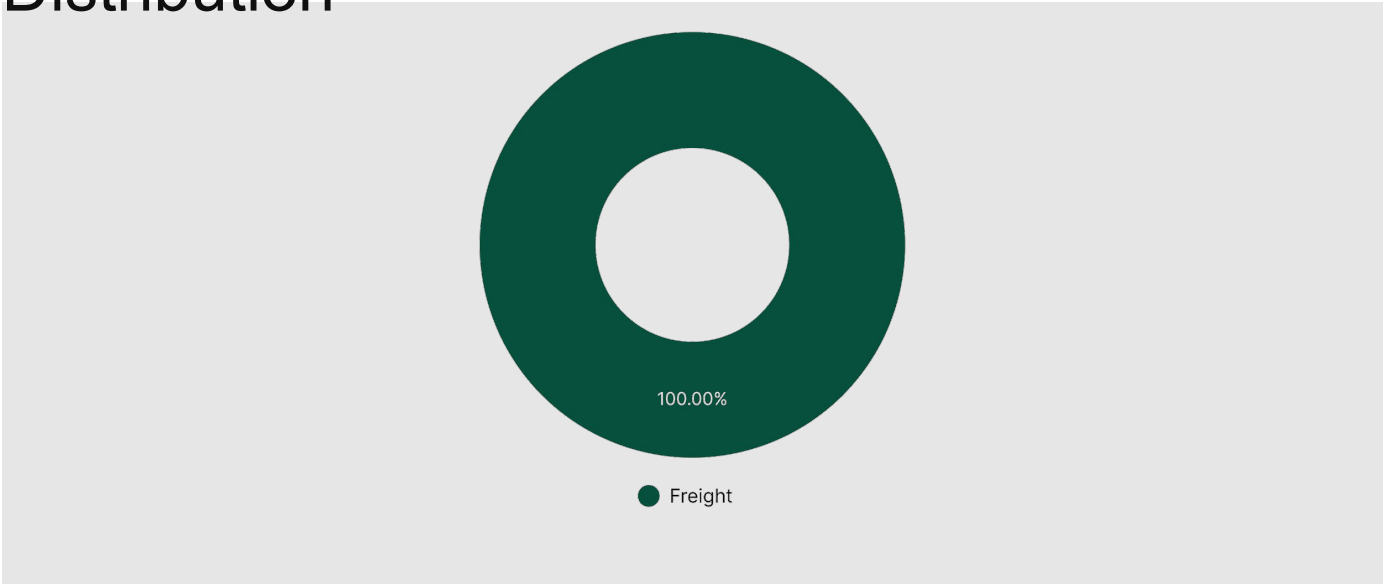

Climate Change - Manufacturing

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
Natural gas usage during material transformation (bleached kraft paper)	3	0.19	34.27	51.03 %
Electricity usage during material transformation (bleached kraft paper)	2	0.35	32.89	48.97 %
TOTAL				67.16 100.00 %

15886114 (sold in CH)

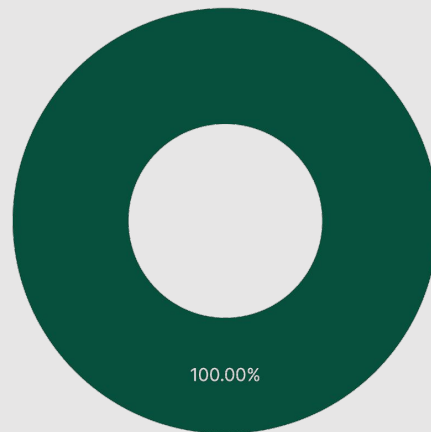

Climate Change - Transportation and Distribution

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
Freight	4	0.66	41.37	100.00 %
TOTAL			41.37	100.00 %

15886114 (sold in CH)

Climate Change - End-of-Life Treatment

- End of life (bleached kraft paper)

Activity	Emission Factor Num	Quantity	Impact (g CO ₂ eq)	Percentage (%)
End of life (bleached kraft paper)	5	0.66	382.95	100.00 %
TOTAL			382.95	100.00 %
