

SALENTO LOW

S1PS FO SR

FT7 1170 BI1 02

Specifications

Upper	highly breathable suede leather and textile upper
Lining	BI-FRESH PLUS 3D lining with high breathability and top abrasion resistant
Toe-cap	aluminium BI-ALLOY
Nail protection	Zero Perforation fabric PS BI-SAFE metal-free
Sole	Bi-density PU with BI-SHANK arch support
INSOLE	DAMPER PRO
Size	36/48
Fit	Mondopoint 11
Safety Norms	EN ISO 20345:2022
WEIGHT	565g

WORK ENVIRONMENT

Automotive / Logistics / Agriculture / Craftmanship / Precious metal / Light Industry / Engineering / Mechatronics / Warehousing

DESCRIPTION

SALENTO LOW is a sporty safety shoe in S1PS protection class with highly breathable suedeleather and textile upper

TOE-CAP

COMPONENTS

BI-ALLOY: New ultra-light and non-magnetic toe cap, made with approximately 56% recycled aluminium. The special production system makes it extremely reliable even in the most critical situations. The toe-protection band makes it very comfortable.

INSOLE

DAMPER PRO: New insole in open-cell PU with antibacterial fabric, shaped and anatomical, it is designed to increase comfort, shock absorption, especially in the heel area, improving the discharge of energy accumulated while walking and moving weights

STANDARD LABEL

PLUS

BI-FRESH PLUS: Three-dimensional Polyester lining with high abrasion resistance and breathability

Calzaturificio 5Bi S.r.l.
Via Trani, 94-100
76121 Barletta (BT)

BI-SAFE: Lightweight, flexible, and metal-free, this solution not only reduces weight and provides better thermal insulation compared to steel plates, but also offers superior average resistance to penetration by 3 mm nails, exceeding the 110 kg (1,110 N) required by the new EN ISO 22568-4:2021 standard

FT7 1170 BI1 02

42

bicap.it

BI-SHANK: Anti-torsion system designed to stabilize the sole, counteracting longitudinal imbalances and facilitating the natural walking motion

S1PS FO SR

Year and month of manufacture

BI-GRIP: Compound that gives footwear lightness, comfort, and durability. The injection technology and the polyurethane used provide the sole with high slip resistance and excellent stability, even on uneven and slippery surfaces
