

DAYVIA[®]
LUMINOTHERAPIE
by cep

Designation	Light therapy lamp
Product No.	1000
Target Market	Offices

Product Features	Consumer Benefit
Structure & Switch	
<u>Compact</u> : 13.7 x 9.6 H 34,6	⇒ Fine and elegant for saving space
<u>Light</u> : 0.8 kg	⇒ For vertical or horizontal use
<u>Strong illuminance</u> : 10 000 luxes for light therapy	⇒ Easy to move
<u>Touch switch with dimmer</u> : on/off and +/-	⇒ compensates for the lack of natural light in autumn and winter
<u>Material</u> : polycarbonate mirror hull and face in plexiglas satin ice	⇒ Use as a desk lamp by reducing the intensity
<u>100% Made in France</u> : power supply and lamp	⇒ Aesthetically pleasing
	⇒ Optimal distribution of the light
	⇒ Reliability, and long lasting
Consumption & Power supply	
<u>Lighting quality</u> : A	⇒ Environmental protection
<u>Electric consumption</u> : 21 W	⇒ Low electric consumption compared with other light therapy lamps
<u>Power supply</u> : case outside transformer. Input AC 220-240 V / 50-60 Hz ; Output DC 06 V 4	⇒ Safety of use
<u>Insulation</u> : class II	
Light source & Illuminance	
<u>Light source</u> : 134 leds OSRAM SIEMENS (108 whites=4000k and 26 blues)	⇒ The latest LED technology - OSRAM SIEMENS for a high quality lighting
Color T° = 4500°K to 5800°K (more the intensity of light, the more the T° of colour is increased)	⇒ 2 types of leds to enrich the light spectrum: maximum efficiency light therapy
Life time = 30 000h	⇒ An ideal colour temperature for the office that can be tailored to your requirements (colder or warmer)
NF EN62471 : This standard applies to lamps and devices using lamps. Certified by LNE (laboratoire national de metrologie et d'essais) = risk group 0 (no risk)	⇒ Non-existent maintenance
	⇒ Photobiological Safety
<u>Illuminance</u> : 10 000 luxes at 15/20 cm.	⇒ Large diffusion of light
	⇒ Ensures consistent lighting across the desk
Regulation & Guarantee	
<u>CE</u> : in compliance with the European directive 93/42CEE concerning medical devices CE0459 marking	⇒ The guarantee of an effective product answering to all European safety standards appropriate for medical devices
<u>RoHS</u> <u>DEEE</u> <u>REACH</u>	
 	
<u>Guarantee</u> : 2 years	⇒ A reactive after-sales service available via a simple phone call

Why list this product in your catalogue?	<i>A high quality, stylish and flexible 2 in 1 desk and light therapy lamp with proven health benefits. Effective and powerful (10 000 luxes) with a dimmer option to increase/decrease intensity according to your requirements.</i>

Stylish, high quality Light Therapy lamp designed specifically for office desks: can be used as an everyday desk lamp but with the added health benefits of light therapy!

The health benefits of light therapy are widely known and proven by many international studies.

Perfectly safe (no UV emissions) and ideal for use in winter months and when there is difficulty of exposure to natural daylight.

Illumination reaches 10 000 lux at a distance of 15 to 20 cm away from the lamp face, 5000 lux between 25 and 30cm, and 2500 lux between 40 and 45 cm. 30 min of exposure daily to 10 000 lux / 5 000 lux for 1h or 2 500 lux for 2h is sufficient to boost morale, regain energy, and improve work efficiency.

The intensity of the light is fully controllable: after your light therapy session while working you can reduce the intensity according to your desire. The light spectrum of this lamp is very rich and powerful thanks to a combination of two types of LEDs manufactured by Siemens.
