

MAUL Energy-Saving Lamp MAULatlantic

- Includes an 11 Watt energy-saving bulb (G23)
- High light strength, purity of reflection
- Energy class "A"
- Attractive price, three colours

Guarantee: 2 year.

Includes 11 Watt energy-saving bulb (Socket G23), 6500 Kelvin, daylight-white light. Energy efficiency classification "A". No energy consumption when switched off. With electronic control gear (ECG). The ECG ensures an anti-glare light with no flackering and lower consumption. A further advantage is the longer life expectancy of the light bulb. 1700 Lux light strength at 35 cm distance. 840 Lumen. Upper arm length 34 cm, lower arm 33 cm. Lamp head approx. 36 x 7 cm. Flip switch on head for easy ON/OFF function. Reflector for optimal use of light. Length of lead approx. 1,80 m, protection class II (Euro plug). Intertek GS-mark. Energy-saving replacement bulb with G23 socket, Art.-No. 828 12 05.

821 35: Metal clamp version with desk protection for desks up to 5,5 cm. Height in normal working position 42 cm.

821 36: Stable weighted base, ca. 20 x 14,5 cm, with inlay. Height in normal working position 45 cm.
