

## 4800 Goggle Clear PC

### FRAME

- Soft PVC translucide frame
- 13 mm elastic headband
- Suitable to wear with prescription glasses
- Indirect ventilation system (prevent fog)
- Weight : 57 g.

### LENS

- Clear Polycarbonate lens
- Optical quality class 1 (no distortion)
- Good resistance to molten metal and impact
- Visible Light Transmittance = 92%

### FIELDS OF USE

Protects against:

- Heavy mechanical tasks
- Liquids (*droplets - chemical environment*)
- Dust
- Molten metal

### DO NOT USE FOR

Does not protect against laser beam, or any kind of welding application

### FRAME MARKING

*CE AOS EN166 3 . 4 . 9 . B*

CE = conformity marking  
AOS = manufacturer AOSafety  
EN166 = n° of the standard  
3 = liquids (droplets)  
4 = dust (up to 5 µm)  
9 = molten metal  
B = middle energy impact resistance (120 m/s)

### EUROPEAN STANDARD

This product conforms to the European Council Directive 89/686/EEC and with the EN166 :1995

EC-Type Examination Certificate n° 130/1

Issued by INSPEC (notified body n°0194)  
Upper Wingbury Courtyard, Wingrave, Aylesbury  
Buckinghamshire, HP22LW, England  
*Conform to EN166*

### LENS MARKING

*AOS . 1 . B . 9*

AOS = manufacturer AOSafety  
1 = optical class (permanent wear)  
B = middle energy impact resistance (120 m/s)  
9 = molten metal
