1. TRADE NAME STABILO® OHPen universal permanent
2. ARTICLE NUMBER 841 / 842 / 843
3. SUPPLIER DETAILS STABILO International GmbH Schwanweg 1, D-90562 Heroldsberg Further product information: info@stabilo.com or www.stabilo.com/de/faq Emergency - Hotline: Poison Information Centre Munich Tel.: +49-89-19240
4. PHYSICAL AND SAFETY DATA Liquid composition with characteristic odor, contained in a pen with fiber reservoir. When stored and used properly, no hazardous reactions can be expected. In case of fire, carbon monoxide (CO), carbon dioxide (CO ₂) and with some colors nitric oxides (NO _x) will be set free as thermal decomposition products. When not used properly, some colors may stain the skin, mucous membranes or clothing and fabrics. In some materials, the stain might be permanent. In case of contact with the eyes, rinse out open eye thoroughly under running water for several minutes. Due to the alcohol content, serious, reversible irritations may be expected in case of contact with the eyes. If complaints persist, contact an ophthalmologist. Based on the Regulation (EC) No. 1907/2006 („REACH“), this commercial product is not a hazardous substance, a hazardous mixture or a hazardous substance in an article. Therefore a Safety Data Sheet is not required according to article 31 of the REACH Regulation.
5. TRANSPORT INFORMATION ADR/RID and IMDG-Code : UN-No. 3175 Solids, containing flammable liquid (Class 4.1) but not subject to the transport regulations, according to Special Regulation 216 as the storage volume is less than 10 ml and the casing can be sealed firmly. IATA-DGR : UN-No. 3175 Class 4.1 but not regulated by the IATA-DGR, according to Special Regulation 216 (storage volume less than 10 mL).
6. ECOLOGICAL INFORMATION / DISPOSAL CONSIDERATIONS The pen can be refilled and can therefore be reused several times. The casing and the cap consist of polypropylene. If recycling is not possible, the writing instruments may be added to the household waste in small quantities. Larger quantities are to be disposed of under compliance with local public authority regulations, e.g. at a suitable waste disposal site or incinerator. Only small quantities of dyes are contained in the inks. They are, however, very durable- on account of their intended use and therefore biodegradability in normal conditions in sewage works or in surface waters is difficult. They can, however, be sufficiently adsorbed in the activated sludge and eliminated from the water.
7. OTHER INFORMATION The information herein is based on our present state of knowledge and on data considered to be accurate as of the date of preparation of this Product Information and is intended to describe our products from the point of view of safety requirements. However, no warranty of representation expressed or implied is made as to the accuracy or completeness of the foregoing data and safety information. The user assumes all liability for any damage or injury resulting from the abnormal use from any failure to adhere to recommended practices or from any hazard inherent in the nature of the product. The article and its packaging materials contain no substances included on the candidate list according to article 59 (1,10) of Regulation (EC) No.1907/2006 (REACH) in a concentration above 0,1% weight by weight.
