

INK JET ROLLS

Strong points

The Clairefontaine range of inkjet plotter rolls benefits from special surface treatments for excellent printed results: good colour density, quick drying, excellent line definition.

The universal inkjet roll is a high white paper with a special surface treatment which gives an excellent printed result for "lines and blocks".

The high white surface-sized paper is characterized by an ultra quick drying time, very vivid colours, a high whiteness and a perfect smoothness.

The high performance matt coated photo quality rolls are dedicated for the printing of images and photos. This one-side-coated base paper offers strikingly realistic printed results with colours absolutely true to the original ones.
