

SUSTAINABLE PRODUCT ADDITIONAL INFORMATION SHEET

At Lyreco we want to provide our customers with the information they need to make the best choice. This product and/or its packaging has been considered sustainable. All products go through a regular assessment to determine if the products are Great for the People, Great for the Planet or if their packaging can easily be reused or recycled. This sheet provides our customers with a bit more detail of why this product has been classed as sustainable.

THIS PRODUCT HAS BEEN DEEMED: GREAT FOR THE PLANET

Products that are classed as 'Great for the Planet' fall into one (or both) of two categories. These are that their production and disposal is Great for the Planet and/or they have been certified with an industry known sustainability accreditation.

This product is a 'Great for the Planet' as its production and/or disposal is deemed sustainable and/or has a sustainability certification through an external accreditation provider. This means that through the production or disposal design of a product, it either:

- Is compostable, degradable and can go through anaerobic digestion processed like food waste can.
- Can easily be disassembled, with most of its components being reused or recycled.
- The product is made up of recycled material.
- The product can be 100% recycled easily (i.e., through typical recycling waste streams and or a Lyreco recycling service).
- Has an extended life span, typically based on long term warranties of a product.
- Is made from more than 50% renewable materials such as hemp, flax, newspaper, wool.
- Single use plastic has been removed from its material content compared to alternative/ similar products.

Possible sustainable certifications that it may also have include:

- [Cradle to Cradle](#)
- [Oeko-Tex](#)
- [Has an environmental product declaration, written in accordance with ISO 14025 standards](#)
- [Forest Stewardship Council \(FSC\)](#)
- [A Carbon Trust – Carbon Reduction label](#)
