

CHLORINE TABLETS

SANTABS CHLORINE TABLETS

- Kills Bacteria.
- Ideal sanitiser for in flight.
- Extremely Economical.

HOW TO USE

Dilution:

1 tablet dissolved in 4-5 litres of water will provide a solution of approx 200ppm of available chlorine.

Cloths & Mops:

following cleaning in suitable detergent, add 1 table to 10 litres of water to provide a bleaching solution
Allow the cloth/mop to soak in a solution for up to 5 minutes, rinse and allow to air dry.

Drain disinfection:

Flush drain with water then dose at 225ppm (1 tablet in 4 litres of water) to 450ppm (1 tablet in 2 litres of water).

Chlorine release tablets can also be used for slow chlorine release by placing the tablet directly in drain gullies or traps.

Do not mix with acidic products such as toilet cleaner as this will cause the formulation of toxic gas.

DANGER: HARMFUL TO AQUATIC LIFE AND IRRITANT
