

## ESD Kumfi Pebble

ESD Kumfi Pebble has been specially designed to dissipate static electricity and reduce fatigue for medium duty areas. Simple tasks - working, walking or, even sitting on certain types of stools, can create static electric. When left unchecked, static can discharge into static sensitive equipment, potentially causing damage. Our ESD Kumfi Pebble drains static from workers, preventing unpleasant static shocks, whilst also safeguarding equipment. The pebble surface design provides good anti-slip protection and the bevelled edges on all sides minimises the risk of tripping.

Optional accessories available - Common Grounding Point Cord - Socket, Earth Bonding Plug and Heal Grounder.
