

V-SCREEN®

Simple Urinal Screen Solution

The Vectair V-Screen urinal screen provides a simple and effective way to keep urinals free-flowing and smelling fresh. It acts as a net over the drain, catching debris like chewing gum, cigarettes, and paper, while releasing a pleasant fragrance for up to 30 days. The unique web design helps prevent splash-back, keeping the surrounding area cleaner. Additionally, the angled anti-splash texture and anti-slip feature ensure the screen stays in the optimal position, reducing mess and maintenance.

BENEFITS

30-Day Fragrance

Provides continuous fragrance release, keeping urinals smelling clean.

Anti-Splash Back

Unique web design minimizes splash-back to maintain a cleaner restroom environment.

Debris Control

Catches debris to keep drains and urinals free-flowing.

Flexible, Anti-Slip Design

Designed to stay securely in place, ensuring effective operation.
