

Faithfull (FAICOUANV8)

# Countryman Anvil Secateurs

The Faithfull Countryman Anvil Secateurs are best suited for cutting dead wood. They feature a high carbon steel SK5 precision ground and polished cutting blade with a non stick coating for superior cutting and performance. The Polypropylene and fibreglass handles feature a soft grip that provides additional strength and comfort with the added benefit of a two position hand switch that adjusts the handles opening width to accommodate small or large hands as well as thicker stems or branches. Cutting capacity 16mm  
Length 200mm

Type	Cutting Capacity (mm)	Length (mm)	-
Anvil	16	200	-
