Professional-Level Foot and Leg Support

SmartFit® Solemate™ Plus Foot Rest

The Solemate Plus Foot Rest has an anti-skid surface and supports your legs at the optimum angle to reduce muscle strain and fatigue for all-day comfort. The professional-level customization lets you measure, adjust, and fit your foot rest without the need for an ergonomist. The height adjusts to match your personal SmartFit comfort color, and with a flick of the foot-operated pedal, you can adjust the tilt angle to your ideal setting.

Features & Benefits:

- **SmartFit® System:** Allows you to dial in your ideal setting, with adjustable height and tilt options that you can match to your personal comfort color using the hand chart that's included with your foot rest
- **Promotes Better Posture:** Work in better comfort throughout the day as the foot rest helps put you in better, stress-reducing posture while you're sitting, which relieves pressure on your feet, back and legs
- **Foot Pedal Adjustment:** With a simple push of your foot on the pedal, you can make adjustments to the foot rest without having to get out of your chair and interrupting your productivity, 3.5"-5" in height or 30 degrees in tilt
- **Non-Skid Surface:** Large area covered in black rubber provides great stability for your feet while you're sitting so you don't need to worry about them slipping off the foot rest

Why Trust Kensington?

For more than 20 years, Kensington has been the brand that professionals choose when they need innovative and comfortable ergonomic solutions for their business or home office. Leveraging a U.S. Army study, the patented SmartFit System is second to none in self-fitting to help alleviate aches and pains at the desk. This product has been designed with high-quality components so it's built to last.
