

## TIO (Two in One) Laptop and Tablet portable ergonomic solution.

An award winning dual purpose tablet stand: Suitable for all portable iPad models, Microsoft Surface, Galaxy etc and other tablets up to 12mm thick. Unlike other stands, TIO supports the tablets screen in an upright position to reduce the glare and reflected light.

As a laptop stand: Suitable for laptops up to 17".

A perfect solution for all your screen working needs. Switch from laptop to tablet, or combine both.

Not only can a compact keyboard up to 153mm x 300mm be stored within the TIO to make agile working easier and help keep the travel case, bag, drawer or shelf tidy. But the TIO also easily configures into an ergonomic tablet stand lifting the tablet an impressive 240mm above the worksurface to significantly improve the viewing height and angle when compared to other mobile tablet stands. The tablet is securely held in position by our innovative Tab Lock system. Or alternatively choose to configure the TIO into a 5-position laptop stand.
