

Lyreco Reference: 7198679 Description: CIRCULAR DINING TABLE 800MM BEECH D Manufacturer: DAMS INTERNATIONAL LTD

Assessment compliant with ISO 14020 and the ICC (International Chamber of Commerce) Framework for Environmental Claims (for more information, visit <u>wearelyreco.com</u>)

The claim applies for the product when " \checkmark " is mentioned.

Compostable: Degradable: Designed for disassembly: Extended life product: Recovered energy: Recyclable: 95% Recycle content: Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced vater consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product: Additional Significant Sustainable Criteria:	Self-declared environmental claims (ISO 14021)
Designed for disassembly: Extended life product: Recovered energy: Recyclable: 95% Recycle content: Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Compostable:
Extended life product: Recovered energy: Recyclable: 95% Recycle content: 95% Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Degradable:
Recovered energy: Recyclable: Ý 95% Recycle content: Ý Pre-consumer waste: % Ost-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Vaste reduction in the production, distribution, use or disposal of the product:	Designed for disassembly: ✓
Recyclable: 95% Recycle content: Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Extended life product:
Recycle content: Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Recovered energy:
Pre-consumer waste: % Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Recyclable: √ 95%
Post-consumer waste: 70% Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Recycle content:
Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	
in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Post-consumer waste: 70%
Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Reduced energy consumption
Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	in the use of the product:
in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Reduced resource use in the production of the product:
in the use of the product: Reusable and refillable: Waste reduction in the production, distribution, use or disposal of the product:	Reduced water consumption
Waste reduction in the production, distribution, use or disposal of the product:	•
distribution, use or disposal of the product:	Reusable and refillable:
Additional Significant Sustainable Criteria:	distribution, use or disposal of the product:
Additional Significant Sustainable Criteria:	
	Additional Significant Sustainable Criteria:

Lyreco informs you that the data mentioned in this document are the property of the suppliers and/or the manufacturers of the concerned product, and which were transmitted to Lyreco by the suppliers and/or the manufacturers, under their full and exclusive responsibility. Only the suppliers and/or the manufacturers will engage their responsibility in case of erroneous information.

*The "Lyreco Green Products Assessment" has been reviewed by SGS CTS Sustainability Services and was found to be in general conformance with the principles of the ISO 14020 standard and the ICC (International Chamber of Commerce) Framework for Environmental Claims

Version: 15 December 2020
