

# ADAPT 100 Series

Certified for Microsoft Teams  
(pending certification),  
optimized for UC

ADAPT 160T ANC USB\*

## Reasons to buy

The way we work is changing – UC headsets must support flexible working styles for use in the hybrid workplace – whether in or out of the office. Offer your employees a value for money headset for calls and multimedia with ANC, superior stereo sound and comfortable design. For flexibility during work, the ADAPT 100 offers a discreet boom arm design that folds neatly away into the headband and plug and play device connectivity. Add smart audio technologies and you get a convenient audio solution that helps boost employee productivity.

## Value for channel partners

- Microsoft Teams certified (with dedicated button) and UC optimized variants, for seamless communication and collaboration
- Stay relevant in UCC deployments with reliable wired headsets that enable instant access to calls or multimedia in today's hybrid workplace
- Smart fold-flat ear cup design and carry pouch, simply pack up and move on to your next working task

## What make us stand out

- Maximized comfort and productivity, with thick, soft, on-ear leatherette ear pads, enabling all-day comfort and noise cancellation (also via ANC)
- Great sound for calls and multimedia
- Stylish sleek design with a boom arm that folds discreetly into the headband

# 63%

say **loud colleagues** are their greatest distraction\*\*

# 29%

use a **headset** or headphones during an average workday for making calls while walking around the office\*\*
