## SECTION 13: Disposal considerations

13.1 Waste treatment methods Waste from residues / unused products:

European Waste Catalogue:
Empty packaging
Recommendation:
Suitable cleaning agents:

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation. $160903^{*}$ - peroxides, for example hydrogen peroxide.

Dispose of observing national or local regulations. Water, if necessary with cleaning agent.

## SECTION 14: Transport information
