- Control panel features multi-touch back-lit controls
- When shredder is off, control panel will not be visible

CAPABILITIES

Will shred: Paper, credit cards, staples, small paper clips and CD/DVDs

Will not shred: Adhesive labels, continous form paper, transparencies, newspaper, cardboard, large paper clips, laminates, file folders, X-rays or plastic other than noted

Paper shred size:

Cross-Cut. .5/32 in. x 1-1/2 in. (4mm x 38mm)

*8.5"x11", 20lb., (75g) paper at 120V, 60 Hz, 4Amps; heavier paper, humidity or other than rated voltage may reduce capacity. Recommended daily usage rates: 300 sheets, 25 credit cards; 10 CD/DVDs (1) 12 sheets per pass.

Fellowes SafeSense® shredders are designed to be operated in home and office environments ranging between 50 - 80 degrees Fahrenheit (10 - 26 degrees Celsius) and 40 - 80% relative humidity.

▲ WARNING: IMPORTANT SAFETY INSTRUCTIONS — Read Before Using!

- Never use aerosol products, petroleum based lubricants or other flammable products on or near shredder. Do not use canned air on shredder.
- Do not use if damaged or defective. Do not disassemble shredder. Do not place near or over heat source or water.

- This shredder has a Disconnect Power Switch (F) that must be in the ON (I) position to operate shredder. In case of emergency, move switch to OFF (0) position. This action will stop shredder immediately.
- Avoid touching exposed cutting blades under shredder head.
- Shredder must be plugged into a properly grounded wall outlet or socket of the voltage and amperage designated on the label. The grounded outlet or socket must be installed near the equipment and easily accessible. Energy converters, transformers, or extension cords should not be used with this product.
- FIRE HAZARD Do NOT shred greeting cards with sound chips or batteries.
- For indoor use only.
- Unplug shredder before cleaning or servicing.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

BASIC SET UP

CASTER INSTALLATION

BASIC SHREDDING OPERATION

Continuous operation: 10-minute maximum

NOTE: Shredder runs briefly after each pass to clear entry. Continuous operation beyond 10-minutes will trigger 20-minute cool down period.

PAPER OR CD/CARD

Plug in and put disconnect power switch in ON (I) position

activate (blue)

Press (也)0N to Feed paper straight into paper entry and release

Hold CD/card at edge. feed right side of entry

When finished shredding set to OFF (U)

ADVANCED PRODUCT FEATURES

Jam Proof System

Eliminates paper jams and powers through tough jobs.

Patented SafeSense® Technology Stops shredding immediately when hands touch the paper opening

Energy Saving System 100% of the time — in use and out of use.

100% JAM PROOF SYSTEM OPERATION*

Eliminates paper jams and powers through tough jobs.

*100% Jam Proof when used in accordance with user manual

SAFE SAFESENSE® TECHNOLOGY

Stops shredding immediately when hands touch the paper opening.

Turn the shredder ON (U) to activate SafeSense®

indicator to illuminate

Touch test area and look for the SafeSense®

SafeSense® is active and working properly

ENERGY SAVING SYSTEM

Optimal energy efficiency 100% of the time - in use and out of use.

- Saves energy in four ways: energy-efficient electronics, jam prevention, standby mode and sleep mode.
- Sleep Mode shuts down shredder after 2 minutes of inactivity.

WHEN IN SLEEP MODE

In sleep mode

To get out of sleep mode touch control panel

insert paper

PRODUCT MAINTENANCE

OILING SHREDDER 🚄

All cross-cut shredders require oil for peak performance. If not oiled, a machine may experience diminished sheet capacity, intrusive noise when shredding, and could ultimately stop running. To avoid these problems, we recommend you oil your shredder each time you empty your waste bin.

FOLLOW OILING PROCEDURE BELOW AND REPEAT TWICE

(I)

*Apply oil across entry Press and hold forward (▶) 2-3 seconds

nozzle container such as Fellowes 35250

CLEANING AUTO-START INFRARED SENSORS

Paper detection sensors are designed for maintenance free operation. However, on rare occasions the sensors may become blocked by paper dust causing the motor to run even if there is no paper present. (Note: two paper detection sensors are located in the center of the paper entry).

TO CLEAN THE SENSORS

Turn off and unplug shredder

infared sensor

Dip cotton swab in rubbing alcohol

Using cotton swab, wipe away any contamination from the paper sensors

Go to Support Section at www.fellowes.com or see back page of manual for useful telephone numbers.

TROUBLESHOOTING

Bin Open: The shredder will not run if the bin is open. When illuminated, close the bin to resume shredding.

Bin Full: When illuminated, the shredder waste bin is full and needs to be emptied. Use Fellowes waste bag 36052.

Remove Paper: When illuminated, press reverse () and remove paper. Reduce paper quantity to an acceptable amount and refeed into paper entry.

SafeSense® Indicator: If hands are too close to the paper entry, the SafeSense® indicator will illuminate and the shredder will stop shredding. If SafeSense® is active for 3 seconds, the shredder will automatically turn off and the user must press the power button on the control panel to resume shredding.
