

Mousetrapper advance 2.0

Mousetrapper advance 2.0 is our top-selling Mousetrapper model, and is available in two versions with stylish accent colours: white or turquoise. Advance 2.0 relieves and prevents repetitive strain injuries and other problems that can occur when you use a conventional mouse.

Benefits of Mousetrapper advance 2.0

Mousetrapper advance 2.0 is our top-selling Mousetrapper model, and is available in two versions with stylish accent colours: white or turquoise. A total of six programmable buttons give you more options for setting up Mousetrapper to work exactly the way you want. The cursor speed has been increased and there is now a completely new scroll function, with buttons for scrolling up and down. The downloadable MT Keys software has also been upgraded with significantly more features for advance 2.0. To enhance the Mousetrapper feel even more a new version of MT Keys for Windows 10 is now available in Microsoft Store. Replaceable wrist supports make it easier to keep the product clean. Mousetrapper advance 2.0 has a folding keyboard support, which makes it equally compatible with new low-profile keyboards and higher-profile standard keyboards.

- Replaceable wrist supports
- Height adjustment with folding non-slip surface
- 2000 dpi

Mousetrapper advance 2.0

Because Mousetrapper is positioned centrally in front of the keyboard it encourages an ergonomically healthy position that keeps your arms close to your body and your hands near the keyboard. This helps you avoid and in many cases relieve strain injuries that can arise from over-stretching your arm, as you do with a conventional mouse. It eliminates the need to stretch beyond the keyboard while using the mouse. The wide, cushioned wrist supports also relieve strain on your neck, shoulders, arms and wrists.

Mousetrapper feel and MT Keys

By placing your index, middle and ring fingers on the control pad you can control the cursor with simple movements as the control pad moves smoothly in two dimensions. You can also left-click anywhere on the control pad.

MT Keys software lets you easily reconfigure the existing functions of your Mousetrapper to choose exactly the functions you want. MT Keys software is easy to download from the Mousetrapper website.

Tips for better posture and ergonomics:

- Adjust your chair so that your feet are supported on the floor and keep your back straight while you are sitting.
- Keep your arms close to your body while working.
- Rest your arms on wrist supports or your desk.
- Vary your working position; use a stand-and-sit desk to alternate between standing and sitting.
- Position the screen at a comfortable distance that does not put strain on your eyes or neck.
- Avoid repetitive strain injuries (RSI) by reviewing your choice of mouse.
