## Methodology

# Environmental Impact Assessment

<p><b>Functional unit</b></p>	<p>The functional unit is a quantified performance of a product system for use as a reference unit. One of the primary purposes of a functional unit is to provide a reference to which the input and output data are normalized (in a mathematical sense). The functional unit of this analysis is "10 page(s) of A4 paper for writing".</p>
<p><b>Impact Indicator</b></p>	<p>The impact is measured through the "IPCC 2013 GWP 100a" method.</p>
<p><b>Electricity impact calculation method</b></p>	<p>Following guidelines from the GHG Protocol, the impact of electricity is calculated using the location-based approach. This means that the emission factors used represent the average annual carbon intensity of the power grid in the country the processes take place in.</p>
<p><b>Hypothesis</b></p>	

# Environmental Impact Assessment

## System Boundaries

The scope of this research includes the complete lifecycle of a piece of paper from raw material extraction to disposal options for each material, which is the cradle-to-grave perspective.

## Exclusions

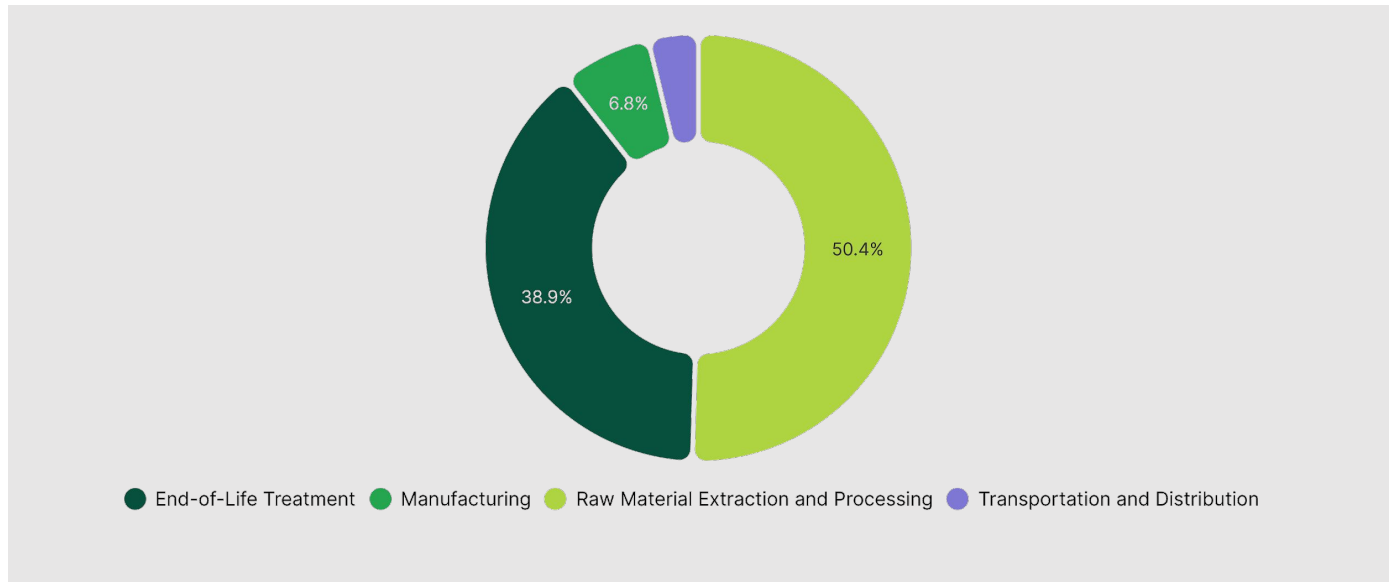

The impact of secondary packaging impact and writing utensils are excluded from this assessment.

# 02

## Results

11332409 (sold in FR)

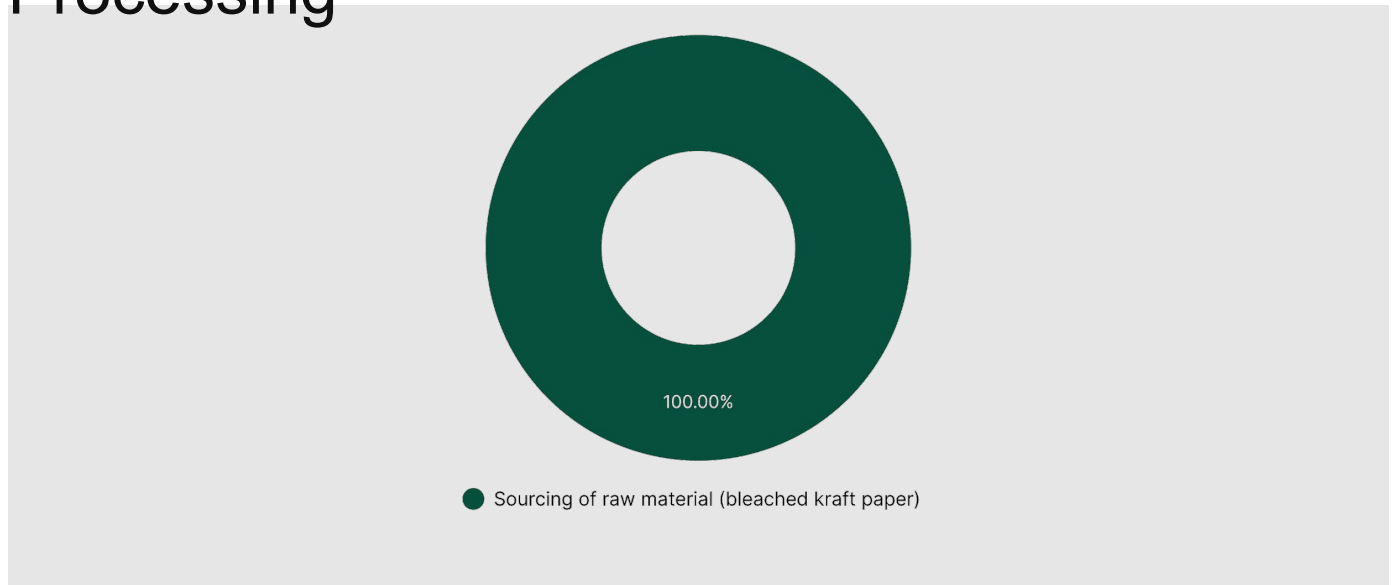

# Climate Change

Step	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Raw Material Extraction and Processing	2.43	50.45 %
End-of-Life Treatment	1.88	38.95 %
Manufacturing	0.33	6.83 %
Transportation and Distribution	0.18	3.78 %
<b>TOTAL</b>	<b>4.82</b>	<b>100.00 %</b>

11332409 (sold in FR)

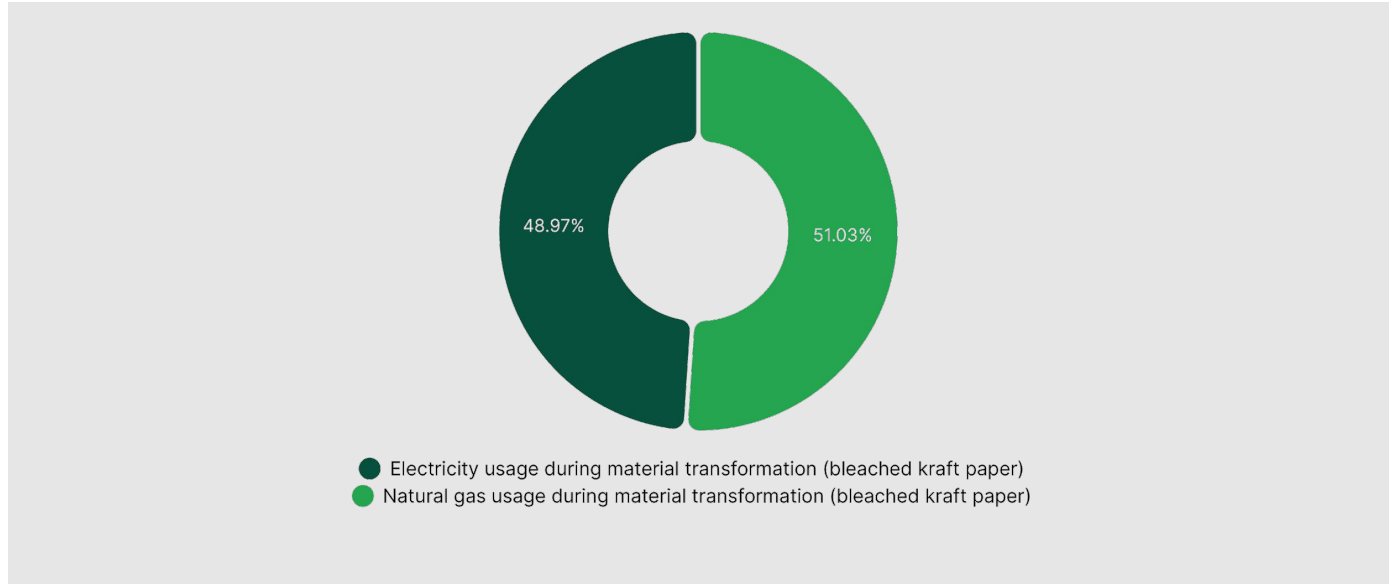

# Climate Change - Raw Material Extraction and Processing

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
Sourcing of raw material (bleached kraft paper)	1	4.89	2.43	100.00 %
TOTAL			2.43	100.00 %

11332409 (sold in FR)

# Climate Change - Manufacturing

Activity	Emission Factor Num	Quantity	Impact (g CO <sub>2</sub> eq)	Percentage (%)
Natural gas usage during material transformation (bleached kraft paper)	3	0.93	168.03	51.03 %
Electricity usage during material transformation (bleached kraft paper)	2	1.73	161.26	48.97 %
TOTAL			329.29	100.00 %

11332409 (sold in FR)

# Climate Change - End-of-Life Treatment

Activity	Emission Factor Num	Quantity	Impact (kg CO <sub>2</sub> eq)	Percentage (%)
End of life (bleached kraft paper)	5	3.26	1.88	100.00 %
TOTAL			1.88	100.00 %
