

# JET DRYER<sup>®</sup> DYNAMIC

## HIGH SPEED AIR HAND DRYER

### REVOLUTION IN HAND DRYING

The powerful hand dryer in anti-vandal design **Jet Dryer DYNAMIC** is the only hand dryer from the Jet Dryer series equipped with a HEPA filter. The powerfully dimensioned motor in a spacious metal housing predestines this dryer for operations with very frequent traffic. Air heating is switched on automatically according to the ambient temperature. The body of the **Jet Dryer DYNAMIC** is made of strong and very tough metal. You can choose between lacquered metal or stainless steel. The cover is fixed with safety screws. It is not possible to slide anything under the dryer and pull it off it off the wall. **Jet Dryer DYNAMIC** starts up automatically using an infrared sensor.

### Advantages of Jet Dryer<sup>®</sup> DYNAMIC:

-  The powerful motor delivers a strong airflow
-  Reduction of operating costs
-  Air filtration with a **HEPA filter**
-  Ecological operation
-  Robust metal **anti-vandal cover**
-  Easy maintenance

### Colour options

Wide nozzle

Antivandal cover

Hepa filter

### SPECIFICATIONS

Voltage:	AC 220-240 V	Trigger system:	automatic
Frequency:	50/60 Hz	IP protection:	IPX1
Current:	6,9 A	Operating temperature:	-10°C / +40°C
Total power:	1200-1450 W	Casing material:	Iron / stainless steel
Motor power:	550 W	Long running protection:	Auto. shutoff after 25 s
Heating element power:	650-750 W	Overcurrent and overheating protection:	Yes
Air filtration:	yes HEPA filter	Drip tray volume:	140 cm
Maximum air speed:	70 m/s	Hand dryer dimensions (h/w/d):	312 x 302 x 172 mm
Air flow:	34,3 l/s	Hand dryer weight:	4,1 kg
Noise:	69 dB	Packaging dimensions (h/w/d):	340 x 205 x 355 mm
Air heating:	yes	Packaging weight:	4.8 kg
