

# 48-128

For light applications requiring a good level of abrasion resistance & grip

# Better alternatives to light or medium weight knitted cotton gloves due to the Nitrile coating that offers much better grip, cushioning and long abrasion resistance.

- EDGE<sup>®</sup> 48-128 industrial work gloves combine a seamless knitted dark grey polyester liner with elasticized knit wrist dipped into black straight nitrile coating.
- Better alternatives to light or medium weight knitted cotton gloves due to the Nitrile coating that offers much better grip, cushioning and long abrasion resistance.
- EDGE<sup>®</sup> 48-128 is the practical choice for light applications where oil is present.

### Industries

- Automotive
- Machinery and Equipment

### Applications

- Assembly of small parts
- General handling
- Packaging
- Quality control

# 48-128

For light applications requiring a good level of abrasion resistance & grip

# **Key Features**

- Very light and comfortable
- High level of dexterity and flexibility
- Good level of abrasion and oil resistance
- Dark glove shows dirt contamination less quickly

### **Vulcanization Chemical Accelerators**

Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

### **Performance Standards & Regulatory Compliance**

### **REACH Compliant**

4121A
