

PRODUCT SPECIFICATION

SANI-99™ Starter Pack

The SANI-99™ Starter Pack includes 3 x 6g sachets that each make 1 litre of high-performance, medical-grade disinfectant when mixed with 1L of water, giving you a total of 3 litres of powerful cleaning solution. Paired with our reusable "One Bottle for Life" sprayer, this compact and eco-friendly kit is ideal for maintaining hygiene in medical, commercial, and domestic settings. SANI-99™ is alcohol-free, chlorine-free, and fragrance-free—formulated to be tough on germs yet gentle around people, on surfaces, and the environment, delivering reliable protection and peace of mind wherever it's needed.

One Bottle for Life	
Material	HDPE – 100% recyclable
Volume	1L
Mechanism	Trigger sprayer

STORAGE & USAGE INSTRUCTIONS

Store sachets in a cool, dry place away from sunlight, heat, and moisture. Keep sealed until use. The product remains stable for up to 4 years sealed and 6 months in solution. To use: Dissolve one sachet in 1 litre of water to create a powerful disinfectant solution. Apply the solution to surfaces, ensuring even coverage, and allow it to work for the recommended contact time to ensure effective pathogen elimination. Keep out of reach of children. Avoid direct contact with eyes and inhalation of powder. Do not mix with other chemicals. Dispose of unused solution and packaging responsibly. Refer to the MSDS for full safety and handling information.

PACKAGING DETAILS

Pack Dimensions (mm):

Height: 287mm

Width: 70mm

Length: 135mm

Packaging Material:

Recyclable: Yes – 100% Recyclable cardboard
