

Lyreco Reference: 2749556 Description: PK12EVOLUTION 829735 PENCIL TRIANGLE ASS Manufacturer:BIC UK Ltd

Assessment compliant with ISO 14020 and the ICC (International Chamber of Commerce) Framework for Environmental Claims (for more information, visit <u>wearelyreco.com</u>)

The claim applies for the product when " \checkmark " is mentioned.

Self-declared environmental claims (ISO 14021) Compostable: Degradable: Designed for disassembly: Extended life product: Recovered energy: Recyclable: % Recycle content: % Recycle content: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: % Reduced meter consumption in the use of the product: Reusable and refillable: % Waste reduction in the production, distribution, use or disposal of the product:
Degradable: Designed for disassembly: Extended life product: Recovered energy: Recyclable: % Recycle content: Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reduced water consumption in the use of the product: Reduced and refillable: Yuaste reduction in the production,
Designed for disassembly: Extended life product: Extended life product: Recovered energy: Recyclable: % Recycle content: Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the production of the product: Reduced water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption In the use of the product: Result water consumption Result water consumption In the use of the product: Result water consumption Result water consumption Result water consumption Result water water consumption Result water wate
Extended life product: Recovered energy: Recyclable: % Recycle content: Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production,
Recovered energy: Recyclable: \checkmark % Recycle content: \checkmark Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: \checkmark Reduced water consumption in the use of the product: Reusable and refillable: \checkmark Waste reduction in the production,
Recyclable: 1% Recycle content: 1 Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: 1 Reduced water consumption in the use of the product: Reusable and refillable: 1 Waste reduction in the production,
Recycle content: Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production,
Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production,
Pre-consumer waste: 54% Post-consumer waste: % Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: Waste reduction in the production,
Reduced energy consumption in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: ✓ Waste reduction in the production,
in the use of the product: Reduced resource use in the production of the product: Reduced water consumption in the use of the product: Reusable and refillable: ✓ Waste reduction in the production,
Reduced water consumption in the use of the product: Reusable and refillable: ✓ Waste reduction in the production,
in the use of the product: Reusable and refillable: ✓ Waste reduction in the production,
Waste reduction in the production,

Lyreco informs you that the data mentioned in this document are the property of the suppliers and/or the manufacturers of the concerned product, and which were transmitted to Lyreco by the suppliers and/or the manufacturers, under their full and exclusive responsibility. Only the suppliers and/or the manufacturers will engage their responsibility in case of erroneous information.

*The "Lyreco Green Products Assessment" has been reviewed by SGS CTS Sustainability Services and was found to be in general conformance with the principles of the ISO 14020 standard and the ICC (International Chamber of Commerce) Framework for Environmental Claims

Version: 15 December 2020
