SAFETY DATA SHEET LIQUID HANDSOAP

According to Regulation (EC) No. 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures.

SECTION 1: Identification of	the substance/mixture and of the company/undertaking	
1.1. Product identifier		
Product name	LIQUID HANDSOAP	
1.2. Relevant identified uses	of the substance or mixture and uses advised against	
Identified uses	Hand soap. For professional use only.	
Uses advised against	Not for direct contact with Food or Beverage stuffs. Not for oral consumption.	
1.3. Details of the supplier of	f the safety data sheet	
Supplier	MERLIN CHEMICALS Unit 5, Passfield Mill Business Park, Liphook, Hants, GU30 7RR +44 (0) 1428 751122 +44 (0) 1428 751133 technical@merlinchemicals.co.uk	
1.4. Emergency telephone n	umber	
Emergency telephone	Out of Office Hours Emergency Information:- For accidents and spillages involving this product that pose a threat to the environment, or human health, or require immediate first aid advice call:- +44(0) 7050 265597. Note:- This number will not accept order queries or calls dealing with equipment breakdowns. UK Environment Agency 24hour Advisory Service 0800 807060. Irish Environmental Protection Agency 1890 335599.	
SECTION 2: Hazards identif	ication	
2.1. Classification of the sub	stance or mixture	
Classification		
Physical hazards	Not Classified	
Health hazards	Eye Irrit. 2 - H319	
Environmental hazards	Aquatic Chronic 3 - H412	

2.2. Label elements

Pictogram

Signal word	Warning
Hazard statements	H319 Causes serious eye irritation. H412 Harmful to aquatic life with long lasting effects.
Precautionary statements	P273 Avoid release to the environment. P280 Wear eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention.
Contains	SODIUM ALKYL ETHER SULPHATE

Detergent labelling	< 5% anionic surfactants,< 5% non-ionic surfactants,Contains PHENOXYETHANOL, 1,3- Bis(hydroxymethyl)-5,5-dimethylimidazoline-2,4-dione, BENZYL ALCOHOL
Supplementary precautionary statements	P404 Store in a closed container. P501 Dispose of contents/container in accordance with national regulations.
Labelling notes	This product is covered by Cosmetic Regulations for which there is no requirement to supply an MSDS to the CLP standard. The H319 Eye Irritation Classification is according to CLP and relates to neat product entering the eye. This is not considered normal use. The data is supplied for information completeness.

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/inf	ormation on ingredients		
3.2. Mixtures			
SODIUM ALKYL ETHER SU	JLPHATE		1-5%
CAS number: 68891-38-3	EC number: 500-234-8	REACH registration number: 01- 2119488639-16	
Classification	Classificatio	n (67/548/EEC or 1999/45/EC)	
Skin Irrit. 2 - H315	Xi; R38, R4 ²	1	
Eye Dam. 1 - H318			
Aquatic Chronic 3 - H412			
AMIDES, C8-C18(EVEN NU N,N-BIS(HYDROXYETHYL)	JMBERED) AND C18(UNSATD.),)		1-5%
CAS number: 68155-07-7	EC number: 931-329-6	REACH registration number: 01-	
		2119490100-53-0000	
Classification	Classificatio	n (67/548/EEC or 1999/45/EC)	
Skin Irrit. 2 - H315	Xi; R41, R38	8. N; R51/53	
Eye Dam. 1 - H318			
Aquatic Chronic 2 - H411			
The Full Text for all R-Phrase	es and Hazard Statements are Displayed in Sec	ction 16.	
Composition comments	To the best of our knowledge, all of the subs for the relevent application in REACH.	stances used in this product are being supp	oorted
SECTION 4: First aid measu	res		

4.1. Description of first aid measures	
Inhalation	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if any discomfort continues.
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.
Skin contact	Wash off promptly and flush contaminated skin with water. Promptly remove clothing if soaked through and flush skin with water. Get medical attention if irritation persists after washing.

Eye contact	Remove any contact lenses and open eyelids wide apart. Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes and get medical attention.	
4.2. Most important symptoms	and effects, both acute and delayed	
General information	Prolonged contact may result in dryness of skin. Eye contact will result in irritation.	
Inhalation	Unlikely route of exposure. Inhalation of sprayed droplets may result in soreness of the throat, mouth and nose.	
Ingestion	Unlikely route of exposure without deliberate abuse. If neat chemical is ingested, irritation of the mouth, throat and GI tract may occur. If dilute chemical is ingested some soreness of the mouth, throat and GI tract may occur.	
Skin contact	This product is designed to be safe to skin. In unusual cases or after very frequent use, irritation or dryness of skin may occur. This may be related to open cuts and abrasions.	
Eye contact	Irritating to eyes.	
4.3. Indication of any immedia	te medical attention and special treatment needed	
Notes for the doctor	Synthetic Hand Soap containing Surfactants and Preservatives in Aqueous solution.	
SECTION 5: Firefighting meas	sures	
5.1. Extinguishing media		
Suitable extinguishing media	The product is non-combustible. Use fire-extinguishing media suitable for the surrounding fire.	
5.2. Special hazards arising from	om the substance or mixture	
Specific hazards	On heating irritating fumes may be formed.	
5.3. Advice for firefighters		
Protective actions during firefighting	Protective clothing and respiratory protection should be worn when tackling fires involving this product. Control run-off water by containing and keeping it out of sewers and watercourses.	
Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.	
SECTION 6: Accidental release	e measures	
6.1. Personal precautions, pro	tective equipment and emergency procedures	
Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet.	
6.2. Environmental precaution	S	
Environmental precautions	Spillages or uncontrolled discharges into watercourses must be reported immediately to the Environmental Agency or other appropriate regulatory body. Avoid or minimise the creation of any environmental contamination.	
6.3. Methods and material for containment and cleaning up		
Methods for cleaning up	Stop leak if safe to do so. Contain and absorb spillage with sand, earth or other non- combustible material. Collect and place in suitable labelled containers and seal securely. For waste disposal, see Section 13.	
6.4. Reference to other sections		
Reference to other sections	See sections 8,12 & 13	
SECTION 7: Handling and storage		
7.1. Precautions for safe handling		

12. Conditions for safe storage. Including any incompatibilities Storage precautions Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store below 40°C. 7.3. Specific end use(s) Hand scap. Section 8: Exposure Controls/personal protection Store in tightly-closed protection 8.1. Control parameters Where an exposure level is quoted, a risk assessment should consider if there is a need to monitor the atmosphere of the working environment. Results should be compared against the VEL and/or DNEL information provided. DNEL and/or DNEL information is supplied by manufacturers of substances in accordance with REACH legislation (Regulation (EC) No 1907/2006), and is used to provide suitable inter deuctor measures to limit exposure of the user of the substance to a non hazardous level. If the measures to tomit shugh by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould consider if there is a need to monitor the atmosphere of controls is hould be divided by the DNEL for the route is greater than 1, then further exposure controls is hould be divided by the QNEL for the route is greater than 1, then further exposure controls is busine if for section 32. Where an explosing in character is 175 mg/m? DNEL Professional - D	Usage precautions	Wear suitable protective equipment for prolonged exposure and/or high concentrations of vapours, spray or mist. Read and follow manufacturer's recommendations.	
40°C. 7.3. Specific end use(s) Hand scap. Section end use(s) Hand scap. Section 8: Exposure Controls/personal protection E.1. Control parameters Ingredient comments Where an exposure level is quoted, a risk assessment should consider if there is a need to monitor the atmosphere of the working environment. Results should be compared against the WEL and/or DNEL information provided. DNEL and/or DNEC information is supplied by manufacturers of substances to a non hazardous level. If the measured level of exposure by a route divided by the DNEL for the route is greater than 1, then further exposure controls should be implemented as described in section 8.2. Where new information becomes available under REACH, this will be passed on as revisions to the Safety Data Sheet. DNEL Professional - Dermai; Long term systemic effects: 175 mg/m² General population - Oral; Long term systemic effects: 15 mg/kg/day General population - Oral; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population - Dermai; Long term systemic effects: 15 mg/kg/day General population -	7.2. 8.2. Exposure controls	
Protective equipment	
Appropriate engineering controls	Provide adequate general and local exhaust ventilation.
Personal protection	The PPE indicated above is not a COSHH assessment. It represents PPE that should be considered during the manufacture, distribution, use and final disposal stages of this product's life cycle. It is the responsibility of employers to conduct a COSHH/risk assessment to determine appropriate PPE levels. The information given below should be used to support this assessment. Where possible replace manual processes with automated or closed processes to minimise contact with the product.
Eye/face protection	It is expected that eye protection will be required during manufacture and packaging operations for this product. It is not expected for normal use. Refer to EN Standard 166 to select appropriate level of protection.
Hand protection	Not relevant.
Other skin and body protection	Provide eyewash station. Wear suitable protective clothing as protection against splashing or contamination. Reference to EN 13832 and EN 943 is useful when selecting footwear and clothing.
Hygiene measures	Promptly remove non-impervious clothing that has become contaminated, provided it is not adhered to the skin. Wash contaminated clothing before reuse. Provide eyewash station and safety shower.
Respiratory protection	No specific recommendation made, but respiratory protection must be used if the general level exceeds the Workplace Exposure Limit.
Environmental exposure controls	Do not allow the substance to contaminate surface water/ground water. See points 6, 12 &13.
General Health and Safety Measures.	A full Risk Assessment should be carried out before handling any chemical(s). Risk Assessments should refer to COSHH, and any other relevant legislation or industry specific guidelines governing the use of chemicals.
SECTION 9: Physical and Ch	nemical Properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Pink.

Odour	Characteristic.	
Odour threshold	Not applicable.	
рН	pH (concentrated solution): 6 - 8	
Melting point	Not applicable.	
Initial boiling point and range	Not applicable.	
Flash point	Not applicable.	
Evaporation rate	Not applicable.	
Evaporation factor	Not applicable.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or explosive limits	Not applicable.	
Other flammability	Not applicable.	
Vapour pressure	Not applicable.	
Vapour density	Not applicable.	
Relative density	1.02 - 1.05	
Bulk density	Not applicable.	
Solubility(ies)	Soluble in water.	
Partition coefficient	Not applicable. Not technically practical for mixtures.	
Auto-ignition temperature	Not applicable.	
Decomposition Temperature	Not applicable.	
Viscosity	Not determined.	
Explosive properties	Not applicable.	
Explosive under the influence of a flame	Not considered to be explosive.	
Oxidising properties	Not applicable. Contains no Oxidising Components.	
9.2. Other information		
Refractive index	Not applicable.	
Particle size	Not applicable.	
Molecular weight	Not applicable.	
Volatility	Not applicable.	
Saturation concentration	Not applicable.	
Critical temperature	Not applicable.	
Volatile organic compound	Not applicable.	
Explosive Properties	Not Classified as Explosive	
Storage Temperature Range	0 - 40°C	
SECTION 10: Stability and reactivity		

10.1. Reactivity

10.1. Reactivity		
Reactivity	Not expected to react when correctly stored and used. Mixing with other chemicals may produce unexpected reactions.	
10.2. Chemical stability		
Stability	Stable at normal ambient temperatures and when used as recommended See note 10.6.	
10.3. Possibility of hazardous	reactions	
Possibility of hazardous reactions	Refer to section 10.1. Do not mix with Hypochlorite based chemicals, this could result in a dangerous heating of the solution.	
10.4. Conditions to avoid		
Conditions to avoid	Avoid excessive heat for prolonged periods of time.	
10.5. Incompatible materials		
Materials to avoid	Strong acids. Bleach.	
10.6. Hazardous decompositio	on products	
Hazardous decomposition products	Does not decompose when used and stored as recommended See section 10.5.	
SECTION 11: Toxicological int	formation	
11.1. Information on toxicologi	cal effects	
General information	See section 4.2.	
Inhalation	Inhalation is an unlikely route of exposure See section 4.2.	
Ingestion	May cause irritation to mouth, throat and GI tract.	
Skin contact	Under normal conditions of use exposure time will be short and the likelihood of causing skin irritation will be very low. After frequent hand washing it is recommended that a moisturising cream is used.	
Eye contact	Irritating to eyes.	
SECTION 12: Ecological Infor	mation	
Ecotoxicity	Harmful to aquatic life with long lasting effects.	
12.1. Toxicity		
12.2. Persistence and degrada	ability	
Persistence and degradability	The surfactant(s) used in this preparation complies (comply) with the biodegradability criteria as laid down in the European Detergents Regulation No 648/2004 as amended.	
12.3. Bioaccumulative potentia	al	
Bioaccumulative potential	Not expected to bioaccumulate.	
Partition coefficient	Not applicable. Not technically practical for mixtures.	
12.4. Mobility in soil		
Mobility	The product contains substances which are water soluble and may spread in water systems.	
12.5. Results of PBT and vPvB assessment		
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.	

12.6. Other adverse effects

Other adverse effects Not determined.

SECTION 13: Disposal consid	erations
13.1. Waste treatment method	<u>s</u>
General information	When handling waste, the safety precautions applying to handling of the product should be considered. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. Do not mix with other chemicals.
Disposal methods	It is expected that in normal use, used liquid will run to drains to septic tanks.
SECTION 14: Transport inform	nation
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	
Not applicable.	
14.2. UN proper shipping nam	<u>e</u>
Not applicable.	
14.3. Transport hazard class(e	us)
No transport warning sign requ	Jired.
14.4. Packing group	
Not applicable.	
14.5. Environmental hazards	
Environmentally hazardous su	bstance/marine pollutant
No.	
14.6. Special precautions for u	iser
Not applicable.	
14.7. Transport in bulk accordi	ng to Annex II of MARPOL73/78 and the IBC Code
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.
SECTION 15: Regulatory infor	mation
15.1. Safety, health and enviro	onmental regulations/legislation specific for the substance or mixture
EU legislation	European Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures. This replaces Directive 67/548/EEC - Classification, Packaging and Labelling of Dangerous Substances and Regulation (EC) No. 453/2010 relating to the Classification, Packaging and

Labelling of Dangerous Preparations. Also considered is the REACH Regulation (EC) No.1907/2006.

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 (EC) No. 1272/2008 : EU Regulation on Classification, Labelling and Packaging of Substances and Mixtures. NPIS - National Poisons Information Service. vPvB - Very Persistent, Very bioaccumulative. PBT - Persistent, Bioaccumulative & Toxic. REACH - Registration, Evaluation, Authorisation & restriction of CHemicals (Regulation EC 1907/2006). DNEL - Derived No Effect Limit. PNEC - Predicted No Effect Concentration. COSHH - Control of Substances Hazardous to Health. Industry - Refers in section 8 to application of the substance in an industrial process. Professional - Refers in section 8 to application/use of the preparation/product in a skilled trade premises.
General information	This document is a Safety Data Sheet, NOT a CoSHH assessment. It is the customer's responsibility to conduct a full CoSHH assessment, taking into account the information held within this document along with other local factors considered in a risk assessment. The Risk and Hazard statements listed below are the full text of abbreviations used in this document. They are not the final classification, for this refer to section 2.
Revision comments	Review in line with CLP Regulation.
Revision date	01/05/2015
SDS number	23154
Hazard statements in full	H315 Causes skin irritation. H318 Causes serious eye damage. H319 Causes serious eye irritation. H411 Toxic to aquatic life with long lasting effects. H412 Harmful to aquatic life with long lasting effects.
REACH extended MSDS comments	REACH requires that persons handling chemicals should take the necessary risk management measures, in accordance with assessments from manufacturers and importers of chemical substances. The relevent recommendations must be passed along the supply chain. These assessments are generally reported in Exposure Scenarios. Where Exposure Scenarios have been provided for substances used in this product, the relevent information is incorporated into the safety data sheet.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
