AUTO-STABLE
PARTITIONING SYSTEM
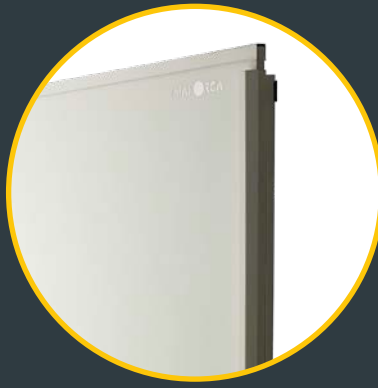

THE IDEAL SOLUTION FOR SEGREGATING THE FLOWS AND OPTIMISE THE SANITARY SAFETY

MANORGA
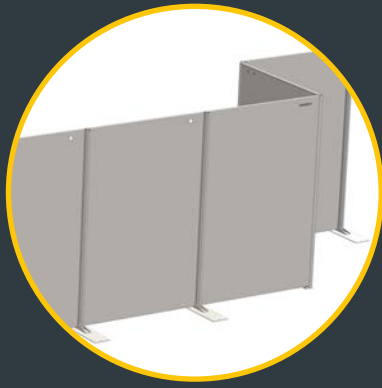

THE PERMANENT INNOVATION

The auto-stable partitioning wall in painted steel allow to create instantly **independent flows** for ensuring **social distancing** with **no need for works**. The sturdiness of the design enables full stability and avoids any inadvertent move of the wall.
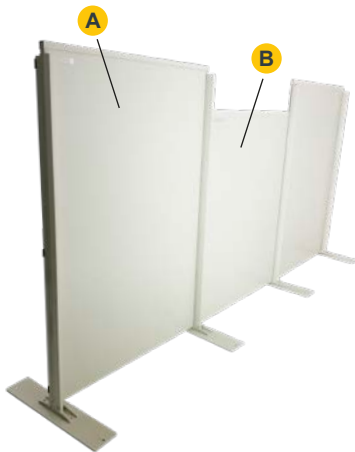

DIMENSIONS

Two options for the module height:
• **The 1500mm height allows visibility above the wall.**

A **Height 1750 mm, length 1200 mm**

B **Height 1500 mm, length 1200 mm**

INFO :
**Your installation can be easily extended when your needs evolve !**
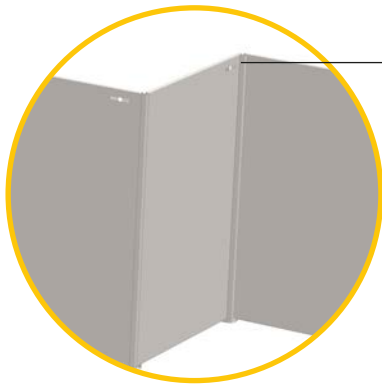

Panels :
• Easy cleaning of the surface (Epoxy paint).

Uprights with base:
• Ensure the overall stability of the structure.

Starting module

Extension module

ANGLE UPRIGHT

Angle upright :
• A single design for creating a 90° or 270° angle.

FINISHING

• Epoxy paint
• Light gray (RAL 7035)

Made in Europe
