EU Type Examination Certificate

No. CE 682213

Product Specification:

Product Type: Respiratory protective devices – full face masks

Product Name: 3M™ Full Face Mask 6000 Series.

Models: 6700 small size (standard industrial product)
6800 medium size (standard industrial product) and 50648 medium size (Automotive Aftercare Division version)
6900 large size (standard industrial product) 50649 large size (Automotive Aftercare Division version).

Technical Specification: Harmonized European Standard EN 136:1998

EN 136 Classification: Class 1

Product Assessment:

The respiratory protection assessment of the product range was based on BS EN 136:1998, the English language version of EN 136:1998 Respiratory protective devices – full face masks, both documents incorporating Corrigendum Number 1.

Product description:

Each model/size of mask is constructed of a silicone face seal, with a polycarbonate lens and straps which comes in three shades of grey silicone depending on the size and the Full Face Mask has a four-strap head harness assembly.

The products are also sold in various kits and packaged variants and a spectacle kit is available for use with the 3M 6000 Full Face Mask.

The three Masks are of the same design only differing in terms of the size of the body of the Mask. The Masks are designed for use with a pair of the same type of 3M Filters and, where applicable, their associated 3M Filter Platforms and 3M Filter Retainers from the range specified in the Reference Leaflet for the Masks.

The Masks are also Certified to EN 14594 as a component of the 3M S-200+ system.

The 3M Filters and the 3M S-200+ system are the subject of separate CE Certificates.

The 3M 6000 Series Full Face Masks meet limited clauses of EN 166:2001 Personal Eye Protection including 7.1.4.2.2 Increased Robustness – Complete Eye-Protectors , 7.2.2 Protection against High-Speed particles (Medium Energy Impact) and 7.2.8 Lateral Protection.

Some models are sold into the Automotive Aftercare Division market and are identical in product construction to the standard industrial market model shown. The only difference is in product identification.

EU Type Examination Certificate

No. CE 682213

Packaged variants:

In addition to the products referenced on this Certificate, the standard industrial products may also be sold as market specific packaged variants. Such variants will be differentiated and the Technical File will be updated with the appropriate information.

Kits and packouts:

The products referenced on this Certificate may also be combined with other 3M products into a kit or packout. There will be no change to the product but the user information may vary. In such instances the Technical File will be updated with the appropriate information.

Certificate Administration Details

Technical File Reference: TF0381

Certificate Amendment Record:

Issue date	Comments	BSI Review No.
November 2018	First issue under PPE Regulation (EU) 425/2016, product initially approved to Article 10 of the PPE Directive 89/686/EEC in BSI issued certificate CE 92769.	0086:18:8846331

Certificate validity

The Certificate holder is responsible for ensuring that the Notified Body is advised of changes to any aspect of the overall process utilised in the manufacture of the product, failure to do so could invalidate the Certificate in respect of product manufactured following the introduction of such changes.

The PPE type complies with the applicable essential health and safety requirements of the PPE Regulation.

The validity of the Certificate for the products is also dependent on the maintenance of the EU Conformity to Type based on Quality Assurance of the Production Process, Annex VIII (Module D), as referenced on BSI issued Certificate CE 595701.
