

# SAFETY DATA SHEET

## CIF All Purpose Cleaner

### Section 1. Identification

**Product name** : CIF All Purpose Cleaner  
**CUC Code** : G\_21085665  
**DU Code** : Not available  
**Product description** : All Purpose Spray

#### Relevant identified uses of the substance or mixture and uses advised against

| Identified uses                                       |
|---|
| Industrial uses<br>Consumer uses<br>Professional uses |

**Supplier's details** : Unilever Vietnam International Co.,Ltd  
 Lot A2-3, Tay Bac Cu Chi Industrial Zone  
 Cu Chi District, Hochiminh City, Vietnam  
 Phone number: 08-3823665  
 E-mail: [tuvankhachhang@unilever.com](mailto:tuvankhachhang@unilever.com)

**Emergency telephone number (with hours of operation)** : 08-3823665

### Section 2. Hazard(s) identification

**Classification of the substance or mixture** : AQUATIC HAZARD (ACUTE) - Category 2  
 Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 0 %  
 Percentage of the mixture consisting of ingredient(s) of unknown hazards to the aquatic environment: 0 %

#### GHS label elements

**Signal word** : Not applicable.  
**Hazard statements** : H401 Toxic to aquatic life.

**Precautionary statements**

- General** : P102 Keep out of reach of children.  
P101 If medical advice is needed, have product container or label at hand.  
P103 Read label before use.
- Prevention** : P273 Avoid release to the environment.  
P260 Do not breathe dust or mist.
- Response** : Not applicable.
- Storage** : Not applicable.
- Disposal** : P501 Dispose of used up container in accordance with local regulations.
- Supplemental label elements** : Not applicable.
- Other hazards which do not result in classification** : None known.

**Section 3. Composition and ingredient information**

**Substance/mixture** : Mixture

| Ingredient name       | % (w/w)    | CAS number |
|-----------------------|------------|------------|
| C9-11 Pareth-5        | >= 1 - < 3 | 68439-45-2 |
| Benzalkonium Chloride | >= 0 - < 1 | 61789-71-7 |

**There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.**

**Occupational exposure limits, if available, are listed in Section 8.**

**Section 4. First aid measures****Description of necessary first aid measures**

- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
- Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery

- position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
- Ingestion** : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

#### **Most important symptoms/effects, acute and delayed**

##### **Potential acute health effects**

- Eye contact** : No known significant effects or critical hazards.
- Inhalation** : No known significant effects or critical hazards.
- Skin contact** : No known significant effects or critical hazards.
- Ingestion** : No known significant effects or critical hazards.

##### **Over-exposure signs/symptoms**

- Eye contact** : Adverse symptoms may include the following:  
watering
- Inhalation** : No specific data.
- Skin contact** : No specific data.
- Ingestion** : No specific data.

#### **Indication of immediate medical attention and special treatment needed, if necessary**

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## **Section 5. Fire-fighting measures**

### **Extinguishing media**

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.
- Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur and the container may burst. This material is toxic to aquatic life. Fire water

*Version:* 1.1

*Date of issue/Date of revision:* 22.01.2018

*Date of previous issue:* 02.11.2017

|   |   |   |
|---|---|---|
| <b>Hazardous thermal decomposition products</b>       | : | contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.<br>No specific data.   |
| <b>Special protective actions for fire-fighters</b>   | : | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| <b>Special protective equipment for fire-fighters</b> | : | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |
| <b>Hazchem code</b>                                   | : | Not applicable  |

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

|                                    |   |  |
|------------------------------------|---|--|
| <b>For non-emergency personnel</b> | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| <b>For emergency responders</b>    | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| <b>Environmental precautions</b>   | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities.   |

### Methods and materials for containment and cleaning up

|                    |   |   |
|--------------------|---|---|
| <b>Small spill</b> | : | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| <b>Large spill</b> | : | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

## Section 7. Handling and storage

### Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
- Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls and personal protection

### Control parameters

#### Occupational exposure limits

None.

To assure Safety and Healthy workplace OELs are listed in reference to the New Zealand NOHSC. If available , Additional information is obtained from the Health and Safety information available in Europe.

- Appropriate engineering controls** : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated

clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

### Skin protection

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. For prolonged or repeated handling, use Latex gloves.

**Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

### Appearance

**Physical state** : liquid  
**Color** : Not available.

**Odor** : perfumed  
**Odor threshold** : Not available.  
**pH** : 10,5 [Conc. (% w/w): 1.000 g/l ]

**Melting point** : Not applicable

**Boiling point** : Not available.  
**Flash point** : Not available.  
**Evaporation rate** : Not available.  
**Flammability (solid, gas)** : Not available.  
**Lower and upper explosive (flammable) limits** : **Lower:** Not available.  
**Upper:** Not available.  
**Vapor pressure** : Not available.  
**Vapor density** : Not available.

*Version:* 1.1

*Date of issue/Date of revision:* 22.01.2018

*Date of previous issue:* 02.11.2017

|   |   |  |
|---|---|--|
| <b>Relative density</b>                       | : | Not available.   |
| <b>Solubility</b>                             | : | Not available.   |
| <b>Partition coefficient: n-octanol/water</b> | : | Not available.   |
| <b>Auto-ignition temperature</b>              | : | Not available.   |
| <b>Decomposition temperature</b>              | : | Not available.   |
| <b>Viscosity</b>                              | : | <b>Dynamic:</b> Not available.<br><b>Kinematic:</b> Not available. |

## Section 10. Stability and reactivity

|   |   |  |
|---|---|--|
| <b>Reactivity</b>                         | : | No specific test data related to reactivity available for this product or its ingredients.           |
| <b>Chemical stability</b>                 | : | The product is stable.   |
| <b>Possibility of hazardous reactions</b> | : | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| <b>Conditions to avoid</b>                | : | No specific data.  |
| <b>Incompatible materials</b>             | : | No specific data.  |
| <b>Hazardous decomposition products</b>   | : | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

**Conclusion/Summary** : Very low toxicity to humans or animals.

#### Irritation/Corrosion

##### **Conclusion/Summary**

**Skin** : Non-irritant to skin.  
**Eyes** : Non-irritating to the eyes., Classification based on testdata [OECD 438]  
**Respiratory** : Non-irritating to the respiratory system.

#### Sensitization

##### **Conclusion/Summary**

**Skin** : Not sensitizing  
**Respiratory** : Not sensitizing

#### Mutagenicity

**Conclusion/Summary** : Not applicable.

**Carcinogenicity**

**Conclusion/Summary** : No additional remark.

**Reproductive toxicity**

**Conclusion/Summary** : Not applicable.

**Teratogenicity**

**Conclusion/Summary** : Not applicable.

**Specific target organ toxicity (single exposure)**

Not available.

**Specific target organ toxicity (repeated exposure)**

Not available.

**Aspiration hazard**

Not available.

**Information on the likely routes of exposure** : Not available.

**Potential acute health effects**

**Eye contact** : No known significant effects or critical hazards.  
**Inhalation** : No known significant effects or critical hazards.  
**Skin contact** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.

**Symptoms related to the physical, chemical and toxicological characteristics**

**Eye contact** : Adverse symptoms may include the following:  
watering  
**Inhalation** : No specific data.  
**Skin contact** : No specific data.  
**Ingestion** : No specific data.

**Delayed and immediate effects and also chronic effects from short and long term exposure**

**Short term exposure**

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

**Long term exposure**

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

**Potential chronic health effects**

**Conclusion/Summary** : Very low toxicity to humans or animals.

|                              |   |   |
|------------------------------|---|---|
| <b>General</b>               | : | No known significant effects or critical hazards. |
| <b>Carcinogenicity</b>       | : | No known significant effects or critical hazards. |
| <b>Mutagenicity</b>          | : | No known significant effects or critical hazards. |
| <b>Teratogenicity</b>        | : | No known significant effects or critical hazards. |
| <b>Developmental effects</b> | : | No known significant effects or critical hazards. |
| <b>Fertility effects</b>     | : | No known significant effects or critical hazards. |

### Numerical measures of toxicity

#### Acute toxicity estimates

| Route | ATE value    |
|-------|--------------|
| Oral  | >2,000 mg/kg |

## Section 12. Ecological information

### Toxicity

**Conclusion/Summary** : No known significant effects or critical hazards.

### Persistence and degradability

**Conclusion/Summary** : The surfactants used in this mixture are readily biodegradable.

**Conclusion/Summary** : No known significant effects or critical hazards.

### Mobility in soil

**Soil/water partition coefficient (KOC)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|                            | ADG   | ADR/RID        | IMDG  | IATA           |

| Additional information     | Not regulated.<br><b>Hazchem code:</b> Not applicable | Not regulated. | Not regulated.<br><b>Marine pollutant:</b><br>No. | Not regulated. |

**Special precautions for user** : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

### Transport in bulk according to Annex II of MARPOL and the IBC Code

Not available.

## Section 15. Regulatory information

### International regulations

#### Montreal Protocol (Annexes A, B, C, E)

None of the components are listed.

#### Stockholm Convention on Persistent Organic Pollutants

##### Annex A - Elimination - Production

None of the components are listed.

##### Annex A - Elimination - Use

None of the components are listed.

##### Annex B - Restriction - Production

None of the components are listed.

##### Annex B - Restriction - Use

None of the components are listed.

##### Annex C - Unintentional - Production

None of the components are listed.

Version: 1.1

Date of issue/Date of revision: 22.01.2018

Date of previous issue: 02.11.2017

**Rotterdam Convention on Prior Inform Consent (PIC)**

None of the components are listed.
