VersaTouch™

**IMPROVED GRIP, DEXTERITY,
FLEXIBILITY AND DURABILITY**

New High Performance 8 mil Nitrile Reusable Gloves with UltraGrip™ Technology

Ansell innovation raises the standard in lightweight, nitrile gloves with the VersaTouch™ 37-200 & 37-210 featuring UltraGrip™ technology. The innovative raised diamond-grip pattern delivers unmatched grip in all wet, dry and oily conditions. In addition to the improved grip, these gloves have enhanced flexibility and dexterity, key features needed for food processing applications.

VersaTouch 37-200 & 37-210 gloves have higher tensile strength and provide higher EN abrasion, resulting in better durability than competitors' 8 mil gloves.

Because these gloves are completely latex-free, they pose no risk to Type 1 allergies. Available in green (VersaTouch 37-200) and blue (VersaTouch 37-210), which provide a security feature designed to offer clear visual indication in case of accidental presence in food substances.

- Case-ready preparations
- Further processing areas
- Fruit and vegetable processing
- Dairy processing

Ansell UltraGrip™ Technology

In most food processing operations there is an abundance of moisture, oils and fat. These substances can cause many hand protection challenges, including the ability to solidly grip materials being handled. Ansell's UltraGrip™ Technology utilizes an innovative surfacing method that provides the optimal grip properties for various types of food processing applications.

Style #	Color	Material	Cuff Style	Grip	Length (mm)	Thickness (mm)	Packaging	Size
37-200	Green	Nitrile	Gauntlet	Raised Large Diamond	320	0.200 (8 Mil)	12 Dozen Pair/Box (144 pairs)	7,8,9,10 11 and 12
37-210	Blue	Nitrile	Gauntlet	Raised Large Diamond	320	0.200 (8 Mil)	12 Dozen Pair/Box (144 pairs)	7,8,9,10 11 and 12

Welcome to VersaTouch™, Ansell's line of hand protection and apparel products that provide comprehensive solutions for applications across the food processing industry.

The VersaTouch™ product line is designed to provide excellent protection options for all applications within your operation in an easy-to-understand, easy-to-select format. Selecting the right product for the application has never been easier! Pairing the new VersaTouch™ 37-200 gloves with Polar Bear® cut resistant gloves provides exceptional cut protection in addition to all the benefits of VersaTouch 37-200.
