Order number: 963545301
Date: 01.10.2020

Ladies and Gentlemen,

We are sending you the current safety data sheets for the articles listed below which are subject to the labelling provisions.

According to Regulation (EC) 1907/2006 of the European Community a safety data sheet has to be provided for preparations classified as dangerous

- with the first delivery of the articles, and
- after each serious alteration within the last 12 months.

If you resell the products (e.g. as wholesaler) you are also obliged to inform your customers in the same manner.

Please note that, with immediate effect, exposure scenarios, for substances for which we have prepared a chemical safety assessment, can be downloaded under mysds.henkel.com. The direct link, if applicable, can be found at the end of the safety data sheet.

Please issue these sheets to all persons in your company who are responsible for industrial safety, health protection and for handling these products.

Herewith all previous versions of the safety data sheets are no longer valid.

Henkel is committed to creating a sustainable future by promoting opportunities along the entire value chain. If you would like to contribute by switching from a paper to the electronic version of SDS, please contact the local Customer Service representative. We recommend to use a non-personal email address (e.g. SDS@your_company.com).

Best regards
