BRAND PROTECTIVE PACKAGING

AirCap[®] **ELLRT 200m**

Barrier-sealed bubble packaging

Even more sustainable
with Minimum 30%
Recycled Content

AirCap® ELLRT 200m

Barrier-sealed bubble packaging

Even more sustainable
with Minimum 30%
Recycled Content

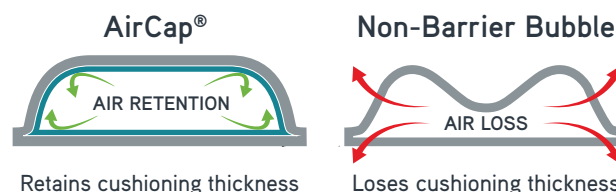

ENERGY EFFICIENCY
EFFICIENT IN WAREHOUSING
EFFECTIVE IN PROTECTION
ECONOMICAL IN TRANSPORT
EVEN MORE ENVIRONMENTALLY
RESPONSIBLE WITH MINIMUM
30% RECYCLED CONTENT

- With the same warehouse space you can put 20% more AirCap® ELLRT 200m bubble than standard AirCap® E 100m bubble.
- With AirCap® ELLRT bubble you can transport more bubble in the same truck, reducing carbon dioxide emissions and giving increased value per m³.
- AirCap® ELLRT barrier-sealed bubble is reusable and recyclable.
- AirCap® ELLRT 200m gives increased handling efficiencies with less roll changes required, saving valuable time.
- Made with minimum 30% recycled content, the new sustainable AirCap® guarantees an efficient use of the natural resources and contributes to reduce the waste going into the landfill.

THE DIFFERENCE IS IN THE BARRIER

The amount of loss of protection is directly correlated to the amount of thickness loss under load:

**THICKNESS LOSS = LOSS OF CUSHIONING
= LOSS OF PRODUCT PROTECTION**

The Recycled Content AirCap® is also available in the HLLRT medium and TLLRT large bubble sizes.

SPECIFICATIONS

Bubble type	Length (m)	Width (mm)	Area (m²)
Small Bubble ELLRT	200	1500	300
Medium Bubble HLLRT	50	1500	75
Large Bubble TLLRT	45	1500	67.5

Recycled Content AirCap® is available in different widths up to 1500mm

Please note, the colour mix of recycled material used to produce High Recycled Content AirCap® will change from one batch to another. As a result, you may notice variations in shade and colour when receiving new deliveries.
