Sales pitch	To reach the moon, you'll need the right stepladder. On a more serious note, depending on your needs, our stepladders comply with the EN 131 standard, making them suitable for use in the home or at work. This solid 3-step double ladder is made of aluminium. Its ribbed treads are wide (120mm) and non-slip. For added safety, the runners are also non-slip: we said get the moon, not slide like a prima ballerina... The little extra is the integrated tool holder. The maximum payload is 150 kg. Two nylon safety are included. With Wonday, take to the skies !															
Comments	For professional use. Colour: aluminium/black. Made in Europe !
