

MRCS220

MediaRange HDMI™ Ultra High Speed Ethernet Cable (Ver. 2.1), 48 Gbps, 2.0m, Black

MediaRange HDMI™ Ultra High Speed Ethernet Cables are engineered to deliver stunning visuals and seamless connectivity for your audio-visual experience, whether for entertainment, gaming, or professional presentations. Our wide range of dependable high quality cables guarantees a reliable and efficient connectivity solution for various applications. With data transfer rate of up to 48 Gbps, this cable is designed to meet the demands of modern digital devices.

Technical Specs:

- Cable Type: HDMI™ Ultra High Speed Ethernet Cable (Ver. 2.1)
- Data Transfer Rate: Up to 48 Gbps
- Supports 4k (3840x2160p) @ 120Hz HDR, 3D, ARC
- Gold-Plated Contacts
- AWG: 30 (0,255mm diameter)

- Triple Shielded
- Shape: Round
- Length: 2.0m
- Color: Black

Note:

HDMI™ and the logo are registered trademarks of the HDMI L.L.C.

FEATURES

- Ethernet Capabilities: Seamlessly integrate your devices with Ethernet functionality for efficient networking.
- High-Speed Data Transfer (48 Gbps): This cable allows for fast transfer of audio and video data between your devices, providing a smooth and high-quality viewing experience.
- Resolution Support: 2k@144Hz: Supports resolutions up to 2k at a refresh rate of 144Hz, ideal for high-definition gaming and fast-paced video playback. 4k@120Hz: Capable of handling 4k resolution content at a refresh rate of 120Hz, ensuring smooth visuals for ultra-high-definition displays. 8k@60Hz: Supports stunning 8k resolution content at a refresh rate of 60Hz, delivering crisp and detailed images for advanced displays.
- Version 2.1 Compatibility: This cable is designed to work with HDMI version 2.1, ensuring compatibility with the latest devices and technologies.
- HDR Support: High Dynamic Range (HDR) support enhances the contrast and color range of your content, providing a more vibrant and lifelike viewing experience.
- 3D Capability: Allows for the transmission of 3D content between compatible devices, bringing immersive entertainment into your home.
- CEC (Consumer Electronics Control): Enables devices connected by the cable to control each other, streamlining your entertainment setup and making it easier to use.
- EDID (Extended Display Identification Data): Helps devices communicate and negotiate the best possible video and audio settings, ensuring optimal performance.
- ARC (Audio Return Channel) Simplifies audio connections by allowing compatible devices to send audio signals back and forth over the same HDMI cable, eliminating the need for separate audio cables.
- 2.0m Length: Providing a suitable and practical length for connecting devices over short to medium distances.

APPLICATIONS

- Home Entertainment: Perfect for connecting a video device with a monitor, TV, computer and other devices.
- Gaming: Delivering optimal performance and reliability for an excellent gaming experience.
- Business: Professional Presentations with reliable connectivity for projectors and displays.
