

PRODUCT NUMBER: 50129770-001
HL400 Lite dispenser with 400 pairs Max

The Honeywell HL400 Earplug Dispenser is built for lightweight, durable convenience. With a simple twist of the knob, it dispenses any Howard Leight disposable foam earplug. Better yet, refilling and mounting the dispenser are just as easy

- Medical and Pharmaceutical • Metal steel • Mining and Quarrying • Offshore • Paper Industries
- Petro-chemical • Printing Industries • Services • Ship Building • Telecoms • Textile Industries
- Transportation • Utilities • Water treatment • Welding • Wood Industries

Features & Benefits

Feature

Durable plastic design is an economical choice for dispensing earplugs . The HL400 base is able to fit on existing wall mounts of other dispensers, including the Howard Leight LS400, as well as competitor mounts. The universal hole positions match many other dispensers, eliminating the need to drill new holes. The table base can also be mounted to a horizontal surface to ensure stabilization and prevent movement. • Mounts to wall or stands as table-top dispenser with balanced footing • Twist knob to dispense uncorded earplugs • Catch basin prevents earplugs from falling to the ground • Matrix, Max, Max Lite, Laser Lite and MultiMax bulk bag refills available • Holds 400 pairs of uncorded earplugs
 POLYURETHANE FOAM Soft foam delivers superior long-wearing comfort and solid performance. BELL-SHAPED DESIGN Delivers maximum in-ear comfort without backing out of the ear canal, easier to insert. SMOOTH, SOIL-RESISTANT SKIN Prevents dirt or other substances from accumulating on skin or entering ear canal.

Benefit

Workers who need to block out loud noise demand the best protection and comfort available in an earplug. That's where Max comes in. The world's most-used polyurethane earplug, Max offers superior noise-blocking performance in a single-use earplug. Max's new enhanced contoured shape is easier to insert and resists backing out of the ear canal, while its softer foam delivers superior long-wearing comfort - delivering solid performance that your workers can depend on.
