

#23504

1000VA Uninterruptible Power Supply (UPS)

Reliable 1000VA battery back-up UPS with 4 wall power outlets, suitable to power and protect your electronic devices

Key features

- Reliable 1000VA UPS with built-in battery
- Provides temporary battery power during power outage; prevents loss of data and damage to hardware
- 4 wall power outlets with battery and surge protection to connect your computer, computer peripherals, networking equipment, flatscreen TV, home automation products or alarm system
- Surge protected outputs to prevent damage from power surges, spikes and fluctuations
- USB port and software to monitor the status of the UPS, sending alerts and automatic shutdown of your computer
- AVR function to ensure stable 230V output voltage

What's in the box

- UPS unit
- USB cable
- User guide

System requirements

- Grounded wall power connection
- For software: Windows 10/8/7, USB port
- 155MB of free hard disk space
- Latest software downloadable from:
 - www.trust.com/23504/driver

1000^{VA}
BATTERY

In Safe Hands

You can rest easy, knowing that the Trust Paxxon 1000VA is keeping an eye out for your devices. The reliable UPS is an ideal secondary power source to your electronics, keeping them running temporarily during power grid blackouts, and protecting them from power surge damage.

Protect Your Devices

With 4 standard wall power outlets, the Paxxon is equipped to protect whatever device or peripheral is connected to it: computer, TV, gaming console, home automation or alarm system, router or modem, or other wall-powered devices. You can connect devices up to a maximum total of 600 Watts or 1000VA.

Safe Shutdown

During a blackout, the UPS' large battery generously covers the power needs of an average PC setup. With 2 minutes of runtime* to save your work and safely shut the system down, the quality of your files and equipment is guaranteed to be maintained.* At 450W capacity load

Extra Options

Paxxon's USB connection and downloadable PC software enable you to program the UPS to execute an automated shutdown, in case of a power outage. If you'd rather save your work and power off manually, the software allows you to set custom visible and audible signals to alert you, as well as monitor the power supply status at all times.

Stable Output

Thanks to the AVR function, the UPS will maintain a stable output voltage. In the event of power surges or spikes, your equipment is in safe hands. So safe, that we're offering an extended warranty of up to € 20.000 on connected equipment.**** Check conditions on trust.com

GENERAL

Height of main product (in mm)	320 mm	Width of main product (in mm)	182 mm
Depth of main product (in mm)	130 mm	Total weight	7800 g
Weight of main unit	7800 g		

OUTPUT

Output power capacity (VA)	1000 W	Output power capacity (W)	600 W
Output voltage range	Nominal voltage	Frequency response UPS	50Hz +/- 1Hz
Waveform type	Simulated sine wave		

PROTECTION

Protections	Child safety shutter, current-recoil, over-charge, over-cranking, over-current, over-discharge, over-heat, over-load, short-circuit	Auto Voltage Regulation	True
RFI-filter	False	Surge protected AC outlets	True
Surge protected phone line	False		

POWER

Number of batteries	2	Battery composition (Alkaline, Li-ion, etc.)	Lead Acid
Power inlet connection	Schuko (Type F)	Power outlet socket type	Schuko
Battery capacity (Ah)	7 Ah	Battery voltage (V)	12 V
Number of power outlets	4	Battery charge time (hours)	8 hours
100% capacity runtime (seconds)	28 seconds	50% capacity runtime (minutes)	5 minutes

FEATURES

Management function (USB)	True	USB connection	True
Status display	False	Audible alarm	True
Software	True		

INPUT

Nominal input voltage	220-240Vac	Operating voltage range	162-290Vac
------------------------------	------------	--------------------------------	------------

CONNECTIVITY

Cables included	USB-B to USB-A	Cable detachable	False
Cable length main cable	140 cm		

CONTROL

Indicators

Activity, Battery, Battery
empty, Overload, Power
