

**Declaration of compliance for materials intended to
come into contact with food**

Hereby I, Philippe DESMARTIN, as Quality Manager of Lucart sas, declare that the product :

Lyreco Industrial Roll 1000 sheets – 10.081.393

(Lucart reference : 852429)

complies with the relevant regulations for **contact with dry, wet and/or fat containing food**, under normal and predictive conditions of use (temperature below 40°C).*

This product is compliant to the regulations of the production' country (France), following the principle of mutual recognition valid in the European Union and particularly :

- The French decree 2008-1469 dated December 2008, modifying the decree 2007-766 dated may 2007 (including partially the European Regulation CE 1935-2004) relative to materials and objects intended to come into contact with food
- The note published by the French DGCCRF "MCDA n ° 4 - version of 01/01/2019" relating to the suitability for food contact of organic materials based on plant fibers intended to come into contact with foodstuffs
- The Policy statement of the European Council, dated September 2004, the 22nd, for tissue paper kitchen towels and napkins

This compliant declaration is based on the following informations :

- When relevant, declaration or information provided by the raw material suppliers
- Tests and analysis made on paper (migration tests, sensorial analysis and analysis of substances with specific restrictions)
- Production guidelines as described in «Guide des bonnes pratiques de fabrication» dated January 2004 (compiled by Group'Hygiène, French professional syndicate of producers of hygiene, health and cleaning purposes) as well as described in the Regulation 2023/2006/CE dated December 2006, the 22nd, of the European Parliament.

This declaration is valid for a duration of 5 years, under reserve of eventual modifications made on the product.

Laval-sur-Vologne (France), May the 30th, 2023

Philippe DESMARTIN
LUCART sas' Quality Manager

* In any event, the conformity gets subject to conditions of storage, handling and use, taking into account the particular characteristics of the product, conditions such as planned by the manners or the professional codes.
