

TECHNICAL DATA SHEET

SECUPRO 625 NO. 625001

Safety technology

Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO 625 guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle immediately after leaving the material being cut. Even when the lever is still being squeezed.

SQUEEZE-LEVER KNIFE WITH LARGER CUTTING DEPTH AND FULLY AUTOMATIC BLADE RETRACTION.

Order No. 625001.02

Long lever. Long blade. Long-lasting enjoyment. With round-ed-tip trapezoid blade.

The new SECUPRO 625 goes straight to the top position of our list with squeeze-grip knives. Its aspiration is very clear: premium. Because it offers all that professional users require: an aluminium handle, an easy and smooth lever to release the blade, a large cutting depth combined with a very high safety due to the fully automatic blade retraction and a comfortable blade change. All in all, you will know that you have a high-end cutting tool in your hands.

Excellent ergonomics

We have rarely produced a cutting tool before that fits so perfectly into the heavy users hand as the SECUPRO 625. The long and smooth lever, the round shape of the handle and the soft-grip at the back of the knife – it's more than worth testing it!

Robust and balanced

You can see and feel that the handle is made of high-quality aluminium. Its robust construction goes hand in hand with

an optimal weight distribution. Consequently, there's almost no risk of weakening for tool and user. Not even when cutting very heavily.

Large cutting depth

The long blade extension is ideal for cutting up to 3-ply cardboard boxes, rubber, material on reels and many more applications. The blade can be changed in a few steps – by pushing the blade change button and pressing the lever, it can be easily pulled out.

For many cutting types

The overall package of the SECUPRO 625 is quite unique – and so are all separate features. Even saw cutting is safe – thanks to the protecting blade retraction. And you can enlarge the number of different application areas by simply installing one of the optional blades.

Safe along the line

While you rely on the blade retraction at the front part of the handle, there's another safety feature built in for even more protection. You can lock the level and thus avoid that the blade is released unintentionally.

PRODUCT FEATURES

Technical features

	Very high safety		Tool-less blade change		Very abrasion resistant		Very ergonomic
	Safety lock		2-times usable blade		Extended blade length		Cutting depth
	Soft-grip		Lanyard hole		For right and left hander		Heavy-duty

	Rubber		Leather		PVC		Carpet
	Textile, material		Wrapping, stretch, and shrink foil		Layers of foil or paper		Felt
	Tape						

Installed blade

NO. 60099
0.63 mm, rounded blade tips, deep-edged

Optional blade

NR. 99
0,63 mm, deep-edged

NR. 199
0,63 mm, deep-edged, stainless

NR. 98
0,63 mm

BLADE CHANGE

Pull the **blade change button** to the top and release the lever. Blade and blade holder will come out of the handle.

Secure the lever with the safety device and turn the handle so that the **transparent blade cover is facing upwards**.

Now **reverse or change** the blade. Make sure that the blade is exactly positioned on the cams on the blade holder.

Slide the lock to the rear position, so that the lever can be released again. Then push the blade change button back into the handle and continue cutting.

SECURITY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please use the product carefully for cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard.

2. Special application instructions to avoid the danger of injuries: Only use knives that are in perfect condition and have sharp, clean and undamaged blades. employ the utmost care when handling the knives.

CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade! To reduce the danger of injuries, hold the hand that is being used to restrain and stabilise the cutting base in such a manner that the restraining hand or even other body parts are not endangered in the event that the knife slips.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades

available at MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife displays signs of aging or other wear, e.g. function problems when changing the blade or in the handling of the blade pushers, then it must be rejected and replaced with a new one. Any modifications or manipulations to the product are prohibited, as they impair the product safety. CAUTION: There is an extremely high danger of injuries here!

4. Non-use of the knife: Always secure the blade in such a way that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: Always keep the knife clean and do not expose it to unnecessary humidity to safeguard a long service life.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER L WITH CLIP NO. 9922

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER L is a robust holder that allows you to carry all large MARTOR cutters as well as our small scissors at all times. In addition, the interior and exterior pockets are designed to allow you to load different tools: for example you can carry an extra cutter, a pen and a pack of blades.

USED BLADE CONTAINER NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER.

WALL MOUNT BRACKET USED BLADE CONTAINER NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.

SAFEBOX NO. 108000

The SAFEBOX is large enough to store a large number of used blades safely. And at the same time, it is compact enough to carry with you. The two slits are not only used for filling, but also to „shorten“ your snap-off blades. When your SAFEBOX is full, empty it into your USED BLADE CONTAINER.
