

Product Family

Honeywell Adaptec

One Style. Three Sizes. Customized Fit & Performance. Research Shows that different facial features demand customized adjustability. Setting out with a new approach to safety eyewear, Honeywell wanted to create a product that would fit everyone - no matter their gender, ethnicity, or facial features. Adaptec is an adjustable eyewear system that can be worn by the widest range of workers and still deliver excellent protection, superior comfort, customized adjustability, premium optics and a stylish look!

- EN 166:2001 - Technical performance standard - the core standard for Eye & Face Protection
- EN 169:2002 - Filters for welding and related techniques - Transmittance requirements and recommended utilisation

- 170:2002 - Ultraviolet filters - Transmittance requirements and recommended utilisation
- 172:1994+A1:2000+A2:2001 - Solar Radiation filters - Sunglare filters for industrial use
- AS/NZS 1337.1:2010 - Australian /New Zealand Eyewear Standard. Medium Impact. Lic 0562

Historical Brand

Honeywell

Specifications

RANGE

- Spectacles

LENS MATERIAL

- Polycarbonate

FRAME MATERIAL

- Polycarbonate with soft, rubber material

FRAME COLOR

- Two Options to satisfy workers preference: Blue/Grey and Black/Red frame options

TEMPLE TIP MATERIAL

- Soft, flexible rubber material covers frame components such as the temples for a comfortable, secure fit.

NOSE

- Soft, flexible material allows each nose pad to independently conform to the wearers face, delivering greater comfort, contact and stability

LENS OPTIONS

- Available in a variety of tints with filtering action, welding and UV and sunglare filters

LENS COATINGS

- Available in 4A+ for most styles and 4A for IR shades

ADJUSTABILITY & COMFORT

- Adjustable nose bridge centers eyes to reduce fatigue, self-adjusting nose pads add to worker comfort, adjustable lens angle ratchets to seven positions, temple micro-adjustment allows workers to adjust temple tension without having to remove the eyewear

CONFORMANCE

- EN 166, EN 169, EN 170, EN 172, & AS/NZS 1337.1

IMPACT RESISTANCE

- FT

SIZES

- Narrow, Regular and Wide sizes to fit most individuals. The Narrow options are designed to fit to a small head and thus the frames are marked accordingly with H according to the standard

For those products marked with K&N (all products excluding IR shades), the following is valid:

K: Resistance to surface damage by fine particles

N: Resistance to fogging of oculars

See the certificate for further detail and information regarding each reference in the Honeywell Adaptec Range.
