

Rapid ECO StandUp Stapler

Eco-friendly stand up stapler to keep your paperwork organised while helping to protect the environment. The desktop stapler is made from 78% post-consumer recycled plastic and has plastic free, 100% recycled cardboard packaging with environmentally friendly soy based printing. It also features patented SuperFlatClinch technology that reduces paper stacks by 40%, allowing you to fit more in your binders and letter trays. With its space saving footprint and 25 sheet capacity, this 100% recyclable stapler is ideal for all your everyday stapling tasks.

Features

Staples up to 25 sheets of paper (80 gsm)

Climate compensated and made from 78% recycled plastic (post-consumer recycled ABS)

100% recyclable by fully dismantling the stapler

Patented SuperFlatClinch technology reduces paper stacks by 40%

Stand up design for hand-held stapling and to save space on your desktop

Quick and easy to re-load staples with the top loading refill mechanism

For use with 24/6 and 26/6 Rapid Strong staples

5 year guarantee when using Rapid staples

100% recycled cardboard packaging with soy based printing
