Exacompta's eco-friendly laptop sleeves are a harmonious blend of sustainability and style. These Global Recycled Standard (GRS) certified laptop sleeves are made with 58% post-consumer recycled polyester, highlighting our dedication to environmental responsibility through material derived from recycled water bottles (rPET). Certified by Ecocert Greenlife according to the GRS available at <http://textileexchange.org> (License No. TE-00247442).

Designed with meticulous attention to detail, our thin and lightweight sleeves prioritise both comfort and protection. Whether commuting or working remotely, these sleeves are equipped with a handy front pocket section that offers both functionality and eco-friendly fashion.

The retractable handle adds convenience to an on-the-go lifestyle, while reinforced foam padding ensures a laptop stays secure against daily bumps and knocks. An inner elastic support provides a snug fit and added peace of mind, enhancing the protective features.

The innovative L-shaped zip opening is a standout feature, helping to prevent a laptop from accidentally slipping out and adding an extra layer of security.
