Features

Use resources more responsibly with **Post-it® Notes**. Sure, they look and stick like **your**

regular Post-it® notes, but there is a difference - 100% recycled paper (30% post-consumer waste content) and a plant-based adhesive (60% by weight).

This means that no new trees were used to make the paper.

- Made from 100% recycled paper (30% post-consumer waste content)
- Made with adhesive that is 60% plant-based material by weight
- The plant material used to make the adhesive is a non-food plant that grows annually
- Recyclable

Feature (has)	Advantage (which means)	Benefit (so that)
<u>Environmental Benefits:</u> Papers used for Post-it® Recycled Notes are 100 % Recycled (with 30% PCW content) and PEFC RECYCLED certified	This certification guarantees the percentage of recycled fibers and the elimination of some substances harmful for environment and human health.	Protection of the environment by reducing the use of natural resources.
<u>Environmental Benefits:</u> Renewable resource adhesive is made with 60% Renewable Plant material by weight	> This selection helps contribute to the protection of the environment, by using renewable material and reducing dependence on petroleum-based materials > Adhesive is produced from resources which are not harmful to the planet	Encourage more sustainable consumption
<u>Environmental Benefits:</u> Post-It® Notes can be recycled	Notes can be treated like any other office waste paper <i>(please refer to your local waste management and sorting instructions.)</i>	Notes can be disposed in paper office waste bins, therefore go through the normal paper recycling waste stream
